Plotinus Iv Ennead Iv Loeb Classical Library 443:

Differences in Identity in Philosophy and Religion Lydia Azadpour, Sarah Flavel, Russell Re Manning, 2020-04-02 This book explores the constitutive role alterity plays in identity formation in Western and Eastern traditions It examines the significance of difference in conceptions of identity across major philosophical and religious traditions in a global and comparative context considering Ancient Greek and Egyptian Chinese Islamic European and Japanese philosophies In addition the book opens up discussion of less dominant trends in philosophical thinking particularly the spaces between self same existence and otherness in the histories of philosophical and religious thought Chapters critique both essentialist and postmodern understandings of self constitution by questioning the ordinary narrative of identity construction across Western and non Western traditions The book also explores the construction of selfhood from a wide range of perspectives drawing upon individual philosophers including Plotinus Descartes Geulincx Hume de Beauvoir and Ueda as well as religious and philosophical movements including Confucian philosophy Zen Buddhism Protestantism and Post Phenomenology Differences in Identity in Philosophy and Religion represents a landmark study drawing together a range of approaches perspectives and traditions to explore how identity is constructed across the world

The Spirit in Romans 8 Marcin Kowalski, 2023-12-04 Kowalski addresses the Pauline understanding of S spirit in Romans 8 as compared to the Stoic idea of pneuma The author first analyzes the Stoic views on pneuma perceived in a variety of life giving cognitive ethical unifying reproductive and inspiring functions The aforementioned features are taken as a starting point for the comparison with Paul to which however the third element is added the Jewish texts of the Second Temple period These include the Old Testament but also The Book of Enoch The Book of Jubilees Qumran The Testaments of the Twelve Patriarchs The Psalms of Solomon Philo of Alexandria Flavius Josephus LAB Joseph and Aseneth 4 Book of Ezra and 2 Book of Baruch Such a rich comparative material contributes to the novelty of the book and enables the reader to discover both the similarities and differences between Paul Greco Roman and Jewish authors The study analyzes Romans 8 in its rhetorical context and brings to light the novelty of the Pauline view of the Spirit The apostle portrays it in its primary cognitive ethical and communitarian function of making the believers similar to Christ and inculcating in them the Lord s mindset and attitudes Paul presents the Spirit as dwelling within a person similarly to God inhabiting the Jerusalem temple and as the mediator of the resurrected life In the original Pauline take the Spirit enables a close union between God and human beings in which the latter keep their freedom and distinctive personal traits

Phantasmatic Shakespeare Suparna Roychoudhury, 2018-10-15 Representations of the mind have a central place in Shakespeare s artistic imagination as we see in Bottom struggling to articulate his dream Macbeth reaching for a dagger that is not there and Prospero humbling his enemies with spectacular illusions Phantasmatic Shakespeare examines the intersection between early modern literature and early modern understandings of the mind s ability to perceive and imagine Suparna Roychoudhury argues that Shakespeare s portrayal of the imagination participates in sixteenth century

psychological discourse and reflects also how fields of anatomy medicine mathematics and natural history jolted and reshaped conceptions of mentality Although the new sciences did not displace the older psychology of phantasms they inflected how Renaissance natural philosophers and physicians thought and wrote about the brain's image making faculty The many hallucinations illusions and dreams scattered throughout Shakespeare's works exploit this epistemological ferment deriving their complexity from the ambiguities raised by early modern science Phantasmatic Shakespeare considers aspects of imagination that were destabilized during Shakespeare's period its place in the brain its legitimacy as a form of knowledge its pathologies its relation to matter light and nature reading these in concert with canonical works such as King Lear Macbeth and The Tempest Shakespeare Roychoudhury shows was influenced by paradigmatic epistemic shifts of his time and he in turn demonstrated how the mysteries of cognition could be the subject of powerful art *The Word Made Self* Thomas J. Seifrid, 2018-07-05 When Osip Mandelstam wrote that the Russian word was sentient and breathing flesh he voiced one of the most powerful themes in his culture In *The Word Made Self* Thomas Seifrid explores this Russian fascination with the power of the word as expressed in the work of philosophers theologians and artists of the Silver Age and early Soviet period He shows that their diverse works poems novels philosophical and religious tracts share an attempt to articulate a model of selfhood within the phenomenon of language The thinkers included in this book among them Pavel Florenskii Roman Jakobson Aleksei Losev and Gustav Shpet frequently responded to the work of contemporary European philosophers even as they drew upon and revitalized powerful elements of early Russian religious thought On Seifrid's view this highly original body of writing about language was the essential context for the development of Russian Futurism Formalism and the work of Mikhail Bakhtin and the Soviet structuralists movements and ideas whose influence has extended far beyond Russia and long past their years of efflorescence This book will have a lasting impact among readers who will be fascinated to discover the richness of this long suppressed chapter in the history of Russian culture **Cusanus Today** David Albertson, 2024-06 At the end of the nineteenth century German theologians and philosophers rediscovered the Renaissance cardinal Nicholas of Cusa 1401-1464 Immediately they hailed Cusanus as the first modern thinker a brilliant German rival to the French Descartes But since the founding of the Cusanus critical edition in 1927 up to its conclusion in 2005 historians have gradually learned that Nicholas was more of a medieval preacher and contemplative than a modern philosopher Yet over the same century modern German and French readers were already digging into Nicholas's many works There they encountered an exciting voice with fresh perspectives about God's immanence in the cosmos and the awesome capacities of the human mind Leading philosophers and theologians from Erich Przywara to Karl Jaspers to Hans Georg Gadamer and from Gilles Deleuze to Jacques Lacan to Michel de Certeau found their own thinking stimulated by the cardinal's innovative concepts and interdisciplinary style Even as Nicholas shifted from modern to medieval among historians he was emerging as a contemporary interlocutor for moderns and postmoderns Who could have guessed that the first debate between Jean Luc

Marion and Emmanuel Falque would take place over the fifteenth century mystical dialogue De visione dei If Meister Eckhart found his moment amidst Deconstruction in prior decades Nicholas of Cusa is our thinker for today His interests anticipate themes in continental philosophy of religion whether alterity invisibility the fold or the icon His habit of interweaving philosophy and theology anticipates current debates on the thresholds of phenomenology Our volume first maps the contours of modern receptions of Nicholas of Cusa in French and German spheres and then beyond Europe to the Americas and Japan It also hosts the next round of engagement by some of today s most original Christian thinkers Emmanuel Falque John Milbank and David Bentley Hart
