POTET,2017-11-18 This book is a provisional essay followed by a vocabulary and an index on the Tagalogs world view in the Sixteenth Century It is mainly based on the entries of the earliest dictionaries of the Tagalog language These were written by Spanish lexicographers about half a century after the conquest of the Philippines Cebu 1565 Manila 1571 Additional data are drawn from Spanish chronicles Many of the recorded beliefs and customs were already obsolete at the turn of the Seventeenth Century Some are extremely surprising starting from the primeval myth according to which the world had no solid land at its beginning but only two fluids water and air Pugad Baboy Pol Medina,1994 **Manila** ,1944

POTET,2013 The few and generally obsolete Tagalog words of Arabic and or Persian origin that can be found in old and modern dictionaries are fragments from a period when they must have been more numerous although their number cannot ever have been very large Some illustrate how Manila was an outpost of the Bornean polity based in Brunei itself a part of the Indo Javanese system while others point at direct contacts with traders who spoke some varieties of Arabic but were probably Indians Persians Armenians from Persia or even Turks Thus these terms entered Tagalog over a very long period that lasted until the 19th Century **Terrain Handbook** Allied Forces. Activism and Authoritarian Governance in Asia Amy Barrow,Sara Fuller,2022-09-30 This interdisciplinary book offers a new analysis of the concepts spaces and practices of activism that emerge under diverse authoritarian modes of governance in Asia Demonstrating the limitations of existing conceptual approaches in accounting for activism in Asia the book also offers new understandings of authoritarian governance practices and how these shape state civil society relations In conjunction with its tripartite theoretical framework the book presents regional knowledge from an array of countries in Asia with empirically rich contributions from both scholars and activists Through in depth case studies the book offers new scholarly insights that highlight the ways in which activism emerges and is contested across Asia As such it will be of interest to students and scholars of Asian politics law and sociology *Crossing Cultural Boundaries* Lili Hernández,Sabine Krajewski,2009 To cross boundaries to go beyond borders an evocative idea but what are the implications and consequences of transgression How are boundaries challenged redefined and overcome within the intricacies of taboos bodies and

identities Crossing Cultural Boundaries Taboos Bodies and Identities brings together a range of articles that address this theme using different frameworks of interpretation As in the case of taboo boundaries are often internalised and may function as regulators for a society Their existence becomes visible the moment they are violated The essays in this book explore voluntary and accidental encounters with boundaries not only from theoretical perspectives but also from the experience of those who are part of transitions on a regular basis in their everyday lives The notion of otherness is central to the articles in this book The definition and interpretation of cultural others become part and parcel of the process of negotiation of bodies and identities While the other TM is marked by outward bodily signs spaces taboos and cultural practices the self is empowered by resisting submission to dominant modes and descriptions Deconstructing boundaries becomes part of the project of redefining the self This book will appeal to academics and researchers in communications cultural studies sociology health sciences anthropology literature and applied linguistics
