How God sees the world is a message of peace on Earth an invitation to Christians and the world to become peaceful and
mEEK like angels an invitation to mankind to become compassionate and stand together to combat pollution and the global
warming of the Earth How God sees the world is the Bible Western philosophy Mathematics Literature Science and Life The
book is unique and revolutionary in the history of humanity because the author uses mathematical reasoning to prove the
truths in religion philosophy and life The author is an advocate of the renaissance civilization and zero growth as was
recommended by the Club of Rome in the book entitled The Limits to growth The author explains the mysteries of Satan and
original sin by using Personnalism Phenomenology Existentialism and Mathematics Mathematics is logic and the art of
reasoning The author demonstrates mathematically and biblically that a Christian is a saint a communist or a neutral being
That is to say humanity must become communist or brotherly to hope to solve the problems of pollution unemployment

violence poverty health crime wars etc This means humanity must become communist or brotherly if it wants to survive
