APRIL-SEPTEMBER 1970**

Henriette D. AVRAM and Lenore S. MARUYAMA: MARC Development Office, Library of Congress, Washington, D. C.

*A synopsis of the third progress report on the RECON Pilot Project submitted by the Library of Congress to the Council on Library Resources. An overview is given of the progress made from April through September 1970 in the following areas: RECON production, format recognition, research titles, microfilming, and investigation of input devices. In addition, the status of the tasks assigned to the RECON Working Task Force are briefly described.*

### INTRODUCTION

It is being supported with funds from the Council on Library Resources, the U.S. Office of Education, and the Library of Congress. This article summarizes the third progress report of the pilot project submitted by the Library of Congress to the Council and has addressed itself to all aspects of the project, regardless of the source of funding, in order to present a meaningful document.

Two previous articles in the *Journal of Library Automation* summarized the first and second progress reports, respectively (1), (2). This article describes the activities occurring April through September 1970.
