## Recovering The Prairie:

**Recovering the Prairie** Robert F. Sayre, 1999 Americans in ever increasing numbers are rediscovering the prairie This vast inland sea of grasses buried for a hundred years beneath farms cities and suburbs has endured not only in physical remnants but also in the memories of its settlers and their descendants the books of prairie authors and the work of prairie artists As restoration ecologists and amateur prairie preservationists recover the land this book recovers the prairie of the American imagination past present and future Beautifully illustrated with the work of sixteen contemporary prairie artists Recovering the Prairie celebrates and examines the perspectives of artists writers native peoples ecologists and landscape architects Willa Cather Aldo Leopold Jens Jensen Alexander Gardner and many others who recognized the unique beauty of the prairie And this volume brings together people from many fields to consider the connections between aesthetics and economics landscape and culture politics and ethics as illustrated by the prairie in American civilization Contributors and artists include Robert Adams Lee Allen Roger Brown James D Butler Pauline Drobney Fred Easker Terry Evans Ed Folsom Lance M Foster Harold L Gregor Robert E Grese Walter Hatke Harold D Holoun Stan Hurd Gary Irving Wes Jackson Keith Jacobshagen Joni L Kinsey Stuart Klipper Aldo Leopold Tom Lutz Curt Meine Genie H Patrick David Plowden Rebecca Roberts Robert F Sayre Jane E Simonson Shelton Stromquist James R Winn Black-footed Ferret Recovery Plan S. C. Forrest, 1988 *Big Dry Resource Area Resource(s) Management Plan (RMP)*, 1995 **Recovery of the Black-footed Ferret**, 2006 *The Night of Affliction and Morning of Recovery* James H. Magee, 1873 *Wild Again* David S. Jachowski, 2014-03-28 This engaging personal account of one of America s most contested wildlife conservation campaigns has as its central character the black footed ferret Once feared extinct and still one of North America s rarest mammals the black footed ferret exemplifies the ecological social and political challenges of conservation in the West including the risks involved with intensive captive breeding and reintroduction to natural habitat David Jachowski draws on more than a decade of experience working to save the ferret His unique perspective and informative anecdotes reveal the scientific and human aspects of conservation as well as the immense dedication required to protect a species on the edge of extinction By telling one story of conservation biology in practice its routine work triumphs challenges and inevitable conflicts this book gives readers a greater understanding of the conservation ethic that emerged on the Great Plains as part of one of the most remarkable recovery efforts in the history of the Endangered Species Act **National Management Measures to Protect and Restore Wetlands and Riparian Areas for the Abatement of Nonpoint Source Pollution**, 2001 **Restoring the Flow** Robert Sandford, 2011-02-15 I believe that it is up to people like us to find the language create the images and imagine the solutions that will allow us to break out of the vicious circle that threatens public health by threatening our landscapes and water sources Together we can work toward this end And we can do it with humour We can do it with style And we can do it with grace Try as we might parts of North America may not escape the impacts of the global water crisis The same

kinds of water supply and quality issues that have appeared around our crowded planet are already beginning to present themselves here Unfortunately this is occurring at a time when as a direct result of declining global food production the world is beginning to rely more heavily than ever on agricultural communities in North America to help meet increasingly unattainable food production goals Instead of waiting for a water crisis of our own North Americans may well wish to put the lessons learned elsewhere in the world into active practice By using the example of others to put our own water management house in order North America can possibly avoid the same kinds of problems other countries are facing with respect to the protection of water resources At the same time we can employ enlightened attitudes toward the management of water resources to advance many of our own ecological and economic sustainability goals Passionately conceived clearly written and citing concrete examples from all over the world Restoring the Flow is an approachable yet authoritative source one of the many implements concerned citizens government officials businesspeople and policymakers can use and reuse in understanding and addressing this ever growing global crisis People of the State of Illinois V.
