Red Dwarf Infinity Welcomes Careful Drivers:

Red Dwarf Grant Naylor, 1989 A novel based on BBC2's cult comedy series written by the writers of the Spitting Image Book Its humour features the epic adventures of a huge clapped out old space ship with an equally clapped out crew Red Dwarf: Discovering the TV Series Tom Salinsky, 2024-11-30 Explores the unique journey of the long running British sitcom detailing its creation cast changes and enduring legacy through critical analysis and behind the scenes insights Red Dwarf is virtually unique among British sitcoms It began in 1988 and was still releasing new episodes in 2020 making it one of the longest running sitcoms of all time but the core cast has remained largely unchanged And its science fiction flavor contrasts strongly with the drawing rooms and sofas which were the norm when it launched and the fast cut mockumentary style which is popular today And yet this is a show which nobody wanted to make and which only barely made it to our screens at all In this work Tom Salinsky will look at exactly how it came to be who was considered for the cast but didn't make it how it was radically reinvented for the third sixth seventh ninth and tenth seasons how it survived the breakup of its key creative partnership the loss of the original spaceship models BBC strikes the departure of a major cast member and the seemingly self-defeating rules which the writers imposed on themselves But this isn't just a behind the scenes account It's also a detailed critical analysis examining why the best episodes succeed and why the less impressive episodes struggle while also finding time to ask just how a hologram made of light can smell burning camphor wood why a creature evolved from a cat is familiar with Wilma Flintstone or just how long Lister and Kochanski were dating for How can all this possibly be contained in one book It can't Volume I will cover the first six series and Volume II will conclude the story of Red Dwarf on television as well as looking at the novels comic strips computer games and more **Red Dwarf** Chris Howarth, Steve Lyons, 1997 Red Dwarf is the biggest cult of recent years Since 1988 there have been seven series of mind boggling comedy adventures as Lister Rimmer Cat and Kryen attempt to make their way back to Earth after a five million year interstellar sleep **The Essential Cult TV Reader** David Lavery, 2021-09-15 The Essential Cult TV Reader is a collection of insightful essays that examine television shows that amass engaged active fan bases by employing an imaginative approach to programming Once defined by limited viewership cult TV has developed its own identity with some shows gaining large mainstream audiences By exploring the defining characteristics of cult TV The Essential Cult TV Reader traces the development of this once obscure form and explains how cult TV achieved its current status as legitimate television The essays explore a wide range of cult programs from early shows such as Star Trek The Avengers Dark Shadows and The Twilight Zone to popular contemporary shows such as Lost Dexter and 24 addressing the cultural context that allowed the development of the phenomenon The contributors investigate the obligations of cult series to their fans the relationship of camp and cult the effects of DVD releases and the Internet and the globalization of cult TV The Essential Cult TV Reader answers many of the questions surrounding the form while revealing emerging debates on its future **Focus On: 100 Most Popular United States**
