Practical Politics Five Principles For A Community That Works:

Practical Politics Michael Keith Briand,1999 This wise and sensible guide to practicing democracy will be invaluable to members of community and neighborhood organizations parent teacher associations local government citizens groups and other grass roots organizations It will also be of interest to anyone wanting a deeper understanding of how democracy should work and why it often fails to do just that

Political and Civic Leadership Richard A. Couto,2010-09-14 This work within The SAGE Reference Series on Leadership provides undergraduate students with an authoritative reference resource on political and civic leadership This 2 volume set focuses on the 100 most important topics issues question and debates specific to politics and civic society Entries provide students with more detailed information and depth of discussion than typically found in an encyclopedia entry while avoiding much of the jargon detail and density one might find in a journal article or a research handbook chapter Key Features Includes entries written by a global panel of renowned experts Offers broad coverage of important of the moment topics related to political and civic leadership including explorations of the personalities and environments of political leaders leadership roles in governance and allegiance citizen activists and civic engagement political campaigning urban politics and leadership public management ethics in politics policy development and implementation executive management of public opinion political speechmaking and the bully pulpit congressional leadership crisis management and more Considers the history of political and civic leadership with examples from the lives of pivotal figures as well as the institutional settings and processes that lead to both opportunities and constraints unique to the political realm Provides students with more depth than usual encyclopedic entries while avoiding the jargon detail and density of more advanced works Features an approachable and clear writing style with appeal to undergraduate researchers and offers a list of further readings after each entry as well as a detailed index and an online version of the work to maximize accessibility for today s students

Learning to Serve Maureen E. Kenny,Lou Anna K. Simon,Karen Kiley-Brabeck,Richard M. Lerner,2012-12-06 Service learning as defined by the editors is the generation of knowledge that is of benefit to the community as a whole This seventh volume in the Outreach Scholarship book series contributes a unique discussion of how service learning functions as a critical cornerstone of outreach scholarship The sections and chapters of this book marshal evidence in support of the idea that undergraduate service learning infused throughout the curriculum and coupled with outreach scholarship is an integral means through which higher education can engage people and institutions of the communities of this nation in a manner that perpetuate civil society The editors through this series of models of service learning make a powerful argument for the necessity of engaged institutions

Publics for Public Schools Kathleen Knight Abowitz,2015-11-17 This book articulates a path for a renewed conception of and commitment to the public dimensions of schooling It is an interdisciplinary book of philosophy and politics written for educational leaders working in or on behalf of public schooling Publics for Public Schools introduces a fresh view on how educational leaders might view the

public ideal In this conception of public work and leadership educational leaders do not work with the public but help to achieve publics for public schools The demos or the people in the case of democratic governance of schools mobilize around particular problems related to young people and schooling they are best understood not as the public but as multiple publics This book provides a conception of public life and of public leadership that can enable educational leaders of all types to help achieve publics for their schools Urban Research Monitor ,1998 **Education and Technological Unemployment** Michael A. Peters, Petar Jandrić, Alexander J. Means, 2019-04-29 This book examines the challenge of accelerating automation and argues that countering and adapting to this challenge requires new methodological philosophical scientific sociological economic ethical and political perspectives that fundamentally rethink the categories of work and education What is required is political will and social vision to respond to the question What is the role of education in a digital age characterized by potential mass technological unemployment Today s technologies are beginning to cost more jobs than they create and this trend will continue There have been many proposed solutions to this problem and they invariably involve an educational vision Yet in a world that simply doesn t offer enough work for everyone education is clearly not a panacea for technological unemployment This collection presents responses to this question from a wide spectrum of disciplines including but not limited to education studies philosophy history politics sociology psychology and economics **Toward a Civil Society C.** David Lisman, 1998-08-30 Addressing the need for marshaling the resources of education to help promote a more civil society this book argues that education has a critical role to play in challenging the dominant views of politics and education Service learning or academically based community service is seen as a promising educational pedagogy that can help students acquire civic virtue and serve as a mechanism to enable institutions of higher education become stronger community partners However there is currently a lack of theoretical grounding for the service learning movement consequently service learning is in danger of being co opted by academic traditionalism which could vitiate service learning s social transformative potential and in fact undermine efforts at democratic revitalization The author provides a basic explanation of service learning and how it is connected to promoting civic virtue It examines the underlying public philosophy debate between weak and strong democracy theorists or procedural and civic republicanism This book argues that certain approaches to service learning such as the voluntarist or charity model the experiential education model and the justice model are ineffective because of their association with weak democracy theory or procedural republicanism The central argument of this book is that a progressive communitarian public philosophy maintaining that individuals attain meaning and significance in the context of community is the most appropriate grounding for service learning *The Responsive Community* ,1999 **Public Dialogue and Participatory Democracy** Shawn J. Spano, 2001 This text presents a case study account of a community project designed to enhance the quality of public communication through assisting academics public professionals and communication practitioners in developing community building programmes **Journal of Higher**
