country Kattago concludes that West Germans have internalized their Nazi past as a normative orientation for the democratic culture of West Germany while East Germans have universalized Nazism and the Holocaust transforming it into an abstraction in which the Jewish question is down played In order to form a new collective memory the author argues that unified Germany must contend with these conflicting views of the past incorporating certain aspects of both views Providing a topography of East West and unified German memory during the 1980s and the 1990s this work contributes to a better understanding of contemporary national identity and society The author shows how public debate over such issues at Ronald Reagan s visit to Bitburg the renarration of Buchenwald as Nazi and Soviet internment camp the Goldhagen controversy and the Holocaust Memorial debate in Berlin contribute to the complexities surrounding the way Germans see themselves their relationship to the past and their future identity as a nation In a careful analysis the author shows how the past was used and abused by both the East and the West in the 1980s and how these approaches merged in the 1990s This interesting new work takes a sociological approach to the role of memory in forging a new integrative national identity Origins of the Modern Mind Merlin Donald,1993-03-15 This bold and brilliant book asks the ultimate question of the life sciences How did the human mind acquire its incomparable power In seeking the answer Donald traces the evolution of human culture and cognition from primitive apes to A I presenting an enterprising and original theory of how the human mind evolved from its presymbolic form *The Memory of the Modern* Matt K.
