Mental Discipline:

Mental Discipline Joe Mind,2020-06 Are you looking for the complete guide for developing a strong self discipline Then keep reading According to author M R Kopmeyer Self discipline is the ability to make yourself do what you should do when you should do it whether you feel like it or not Regardless of your skillset and expertise you will not get far if you do not cultivate the art of self discipline You have to do the necessary things even when you don t feel like doing them especially when you don t feel like doing them No matter where you are at in life you should hold yourself to a system that checks your excesses and keeps you in line I don t just feel like it has always been the major reason for procrastination But if we keep waiting until we feel like it to come to action we re in trouble Self discipline can be explained in different ways It could mean endurance restraint thinking before acting perseverance or carrying out your plans and decisions despite obstacles hardships or inconvenience Self discipline could mean self control too This simply means avoiding unhealthy excesses which may have negative repercussions This book covers The Science and Psychology of Self Discipline Self discipline and Freedom How to Develop Self Discipline Daily Self Discipline Important Techniques Utilization and Application of Positive Habits Mental Toughness and Personal Goals Understanding the Difference Between Mental Toughness and Resilience The Pitfalls of Improving Self Discipline The Difference between Self Discipline and Self Control Self Discipline Confidence and Motivation Techniques to improve your mental toughness More Than Motivated Mindset Changes You Need To Make And Much More Contrary to popular belief real self discipline is never punishing or restrictive of your lifestyle It does not mean living like a monk or being narrow minded The truth is that self discipline comes from a place of staying power and inner strength needed to manage life s everyday affairs while reaching your life goals By adopting a spirit of self discipline I have been able to overcome indecisiveness procrastination and laziness which used to be the major challenges I faced I saw myself taking bold actions and persevering with them even though those actions seem demanding and unpleasant I saw myself applying moderation in things I do In the process I became more considerate understanding tolerant and patient For someone like me who was prone to bend easily to external influence and pressure I began to take more control of my life I saw myself not just setting goals but taking concrete steps to reach them I became more punctual putting more time and effort into the most important things in my life I was exercising regularly avoiding alcohol and drugs stopped procrastinating and began to save for retirement Self discipline comes with mastering your thoughts By controlling what you think you can control how you act It comes with doing things when you don t want to It comes with being free from weakness and laziness being free from doubt and fear and being free from the demands and expectations of others Buy now and start developing your self discipline
