

Menzies Era 1949 - 1966

- Menzies, Sir Robert Gordon (1894-1978), served as prime minister of Australia from 1939 to 1941 and from 1949 to 1966. He served longer than any other prime minister in Australian history. Menzies helped found the Liberal Party of Australia. He dominated Australian political life during the 1950's and 1960's.
- As prime minister, Menzies presided over great changes in the Australian way of life. During the 16 years of his second prime ministership, the Australian economy grew steadily, particularly in manufacturing. The average citizen prospered during this period.
- The steady growth of the Australian economy benefited Menzies's second period as prime minister. He increased government support of higher education. In the early 1950's, Menzies supported a failed referendum to ban Australia's Communist Party. He sent Australian troops to fight with United Nations (UN) forces in the Korean War (1950-1953). He also sent soldiers to serve in the Vietnam War (1957-1975) on the side of South Vietnam and the United States.
- Menzies never lost his love and admiration for the British. He had a particular affection for the royal family. As prime minister, he acted as host to Queen Elizabeth II on her visits to Australia in 1954 and 1963. In 1963, the queen made him a knight of the Order of the Thistle, the second highest order the British monarch can bestow. In 1965, Menzies was made lord warden of the cinque ports, succeeding the famous British statesman Sir Winston Churchill.
- Menzies retired from politics in 1966. He died on May 15, 1978.

Menzies Era:

Requiem for the Australian Dream Sergio Famiano, 2026-01-02 *Requiem for the Australian Dream* examines the origins of the Australian Dream and its importance to Australian society Under the Robert Menzies government the Australian Dream became the measure of a mature society built on the collective values of the fair go and the notion that no one will be left behind Menzies likened it to the greatest expression of democracy is when a man and his family own their own home During his tenure as Prime Minister from 1949 to 1966 home ownership would become the cornerstone of his emerging middle class of little capitalists He believed if Australians were happy and content they would not stray to communism which was gripping the world at the time At just 50 3% in 1945 home ownership would peak in 1966 at a staggering 72% The book examines the economic and political factors which made home ownership obtainable in Australia during this golden era and then what happened to turn the dream into a nightmare From the turbulent 1970s to the 1990s the final years when housing was affordable in Australia the book takes you on a journey that identifies the key political economic and societal decisions which conspire to end the Australian Dream of home ownership for so many Starting with the Whitlam years and moving to the Hawke Keating and Howard prime ministerships we witness the rise of neoliberalism and globalisation and their erosion of wages and employment stability for the majority Labour reforms the rise of negative gearing and the deregulation of the banking industry will all play a role in turning the dream Other monumental changes such as Howard s capital gains reform will be examined particularly when combined with negative gearing which would supercharge property investment from 2000 onwards The 2000s which promised to be a period of safety and stability with the Cold War at an end would prove to be a powder keg of conflict and uncertainty that would drive government decisions and economic policy that would turn against housing affordability Existential factors such as the September 11 attacks the war on terror and the global financial crisis and their influence on monetary policy in Australia would create cheap credit that would incentivise a property boom that would last for 23 years The rise of China and immigration into Australia would put pressure on town planning and housing supply which would fuel property price growth The 1 in 100 year event of COVID 19 would prove to be the last nail in the coffin for the crisis causing an unparalleled rise in the cost of housing construction resulting in a reduced housing supply and record bankruptcy of builders Collectively these factors combined with political blunders would define the crisis that we have today The final chapters will examine 8 key initiatives to solve the housing crisis and how housing affordability and the dream of home ownership can be restored to future generations We reflect on what Australia looks like in 2050 if the crisis continues and examine the importance of home ownership to the future of Australia s society and democracy A must read if you are interested in the housing issue [Pivot of Power](#) Paul Strangio, Paul 't Hart, James Walter, 2017-08-28 The prime ministership remains the main prize in Australian politics but it is a precarious one Leadership turnover in recent years has seen more prime ministers rise and fall than at any time since the decade after federation What explains this volatility The

Pivot of Power is the second volume in a unique blend of collective biography and institutional history that shows the skills limitations and passions of incumbents are only part of the story The ways in which prime ministers thrive and fail are influenced by the resources at their command the evolving nature of the parties they lead the daunting public expectations they face under a relentless media gaze and the challenges that history throws at them Recent changes in these areas have had a destabilising effect and made the role of prime minister more onerous than ever After decades of strong national leadership the office has rarely seemed quite so confounding as it does for its contemporary holders The Pivot of Power explains how this has come about And its rich account of prime ministerial fortune since the mid twentieth century yields historical lessons for overcoming the current malaise *Experience of Nationhood* K. J. Mason,1992 Third and completely revised edition of a resource book first published in 1975 which covers Australian history from Federation to the present Emphasis is on an enquiry based approach to the subject with questions accompanying documents and photographs Indexed

The Australian Government Muscling in on School Education Grant Rodwell,2020-05-07 Despite the Australian Constitution implying school education to be a state responsibility the Commonwealth has increasingly interfered with state school education The Australian Government Muscling in on School Education therefore offers a historical account of this government involvement in Australian education from federation to the present day providing a much needed fully updated and relevant overview the topic Arguing that education has become an arena for competing political forces this book examines the powerful influence of the Commonwealth over education and the political motives behind it exploring how politics influences aspects of the curriculum teaching standards assessment and reporting funding teacher selection and policy more broadly Ultimately questioning whether this influence is in the interests of the members of the community who depend on education the book holds government engagement in education to account Taking the major epochs of federalism as an organizing framework the book s chapters include explorations of The efficiency dynamic and the progressive years 1919 39 Postwar imperatives and the Menzies years 1949 72 Coordinative federalism and treading softly the Whitlam years 1972 5 and Fraser years 1975 83 Corporate federalism the Hawke Keating years 1983 96 Supply side federalism and globalization the Howard years 1996 2007 National control and the Rudd Gillard Abbott Turnbull and Morrison years 2007 15 A thorough and significant examination of the historical engagement of the Australian government in education this book is essential reading for student teachers and postgraduate students in education studies and politics **Australia and Africa** Nikola Pijović,2019-01-28 This book offers analysis of Australia s engagement with Africa as well as the country s rather unique status as a new actor and emerging country in Africa With its empirical originality and comparative contribution the book fills a gap in both the study of Africa s global engagement with emerging countries and in connection with Australia s largely unknown engagement with African states Australia has presented itself as Africa s friend from the south without any colonial baggage and is interested in a long term partnership for trade and development In this context

Australia is only one of many new players seeking more intensive engagement with Africa since the end of the Cold War. At its core, the book argues that because of its largely unacknowledged, flawed historical engagement with Africa, as well as the political partisanship driving its fickle and volatile contemporary engagement with the continent, Australia suffers from an inability to assess its strategic and long-term interests, i.e. it doesn't know what it wants in or from Africa. This makes Australia a rather unique emerging player in Africa, while other new actors' engagement with Africa is generally strategic and driven to a large extent by a desire to secure resources and counter the influence of geopolitical rivals. Australia's efforts with regard to Africa are more episodic and not about acquiring resources or countering its rivals. Hence, while immigration, globalization, trade, terrorism, and climate change continue to bring Africa and Australia closer together, Australia's failure to understand its own interests continues to hamper its engagement with Africa.

A Certain Grandeur Graham Freudenberg, 2009-06-01
Winner of the Age Book of the Year Award, Graham Freudenberg's inside account of Gough Whitlam's political rise and fall is one of the great classics of Australian political writing. From his position as Gough's speechwriter and confidant, just out of the spotlight of history, Freudenberg was an eyewitness to Gough's spectacular rise and fall, which he documents with compelling drama. But *A Certain Grandeur's* most significant achievement is to capture so vividly the character of the man: dictatorial, petulant, erudite, revolutionary. This new edition has been updated to include the Labor Party's regeneration following the Dismissal and to lay to rest myths about Gough and his government's achievements that have prevailed in the three decades since, including those surrounding what has become one of the most controversial legacies: East Timor. A first-class speechwriter of an intellectually commanding political leader meets the challenges to think and insinuate his way inside the mind of the master. This, Freudenberg has done splendidly. *The Age*. He writes with balance and grace and with a carefully modulated intensity. *The Australian Human*, sympathetic and eminently readable. An important study of the evolution of Labor policies and the Australian Labor Party itself. *Canberra Times*. Brilliant. Laurie Oakes. [The Rulers](#) Don Whittington, 1965

Meanjin, 1980. *Meanjin* is a quarterly literary journal publishing the best new writing from established voices and emerging talents. For over 70 years, *Meanjin* has articulated questions of national importance, questions of art, culture, policy, and identity, as well as introducing some of the greatest literary names Australia has ever produced.

Business-government Relations in Australia Stephen Bell, John Wanna, 1992. A collection of integrated essays by 15 academics on state and industry perspectives, policy, regulations, and relations. The text is divided into six sections. Includes a bibliography and index.

Australia and Argentina Tim Duncan, John Fogarty, 1984. The sad story of post-war Argentina is a timely reminder that rich nations badly managed can gradually become poor. Could an Argentine disaster take place in Australia? Twenty years ago, few Australians would have given the idea serious attention. But for twenty years, Australians have accepted the case for economic restructuring, only to find it almost beyond them to make it happen. This is only the most recent experience. Australia and Argentina share. The authors point to parallels extending back into the last century when

European immigrants and capital flowed into both antipodean societies at the same time for like reasons and with similar results No other society shares so much of its economic history with Australia we can ill afford to ignore the lessons of the Argentine tragedy Certain political characteristics have thus far held Australia back from Argentine extremes But both countries have failed to industrialize efficiently and both economies still depend heavily upon politically hard pressed primary industry If Australia continues to subordinate the interests of its dynamic industries to those of the more politically influential sectors in Argentine fashion then so runs the powerful argument of this book Australia faces an Argentine future
