A Most Quiet Murder Susannah Wilson, 2025-12-15 A Most Quiet Murder examines the death of a five year old girl in late nineteenth century France unfolding the mystery through judicial investigations psychiatric medical evaluations and ultimately a trial for murder The investigators quickly learned that the child Henriette had been abducted by Marie Fran oise Fiquet an employee at the city tobacco factory and known troublemaker Fiquet had taken the child back to her home and kept her there all day But what actually happened between the abduction at midday and the discovery of the child s body at five o clock in the morning remained a mystery Susannah Wilson uses archival records press coverage and psychiatric reports to reveal how the troubled history and reputation of Marie Fran oise Fiquet marked by suspicions of sexual debauchery infanticide abortions poisoning theft and extortion was a case study in an emerging medical paradigm Her signs of trauma psychological disturbance and medical morphine abuse provide insight into factitious disorders or simulated illnesses that would be more commonly observed in the following century A Most Quiet Murder provides a new view of nineteenth century France where the law and public authorities intervened in the lives of the working classes and their children during moments of crisis to exercise the law of the land The murder of a child reveals the connections between the psychology of female violence the emergent understanding of factitious disorders and the psychologically complex motives that extend beyond simple altruism
