The Reflowering of the Goddess Gloria F. Orenstein, 1990-02-01 **The Reflowering of the Goddess** Gloria Feman Orenstein, 1990 Explores the body of art and literature that has been inspired and informed by the reclamation of knowledge of ancient Goddess reverence and the rise of women's spirituality from within the feminist movement p ix [The Civilization of the Goddess](#) , *Eden and the Fall - the Fallacies of Radical Ecological History* , 1999 Radical ecology claims to be a new movement at the cutting edge of social change offering a solution to current social and ecological problems through the rejection of reformist ecological politics in favour of a radical restructuring of industrial and especially Western society The claim to have discovered the historical cause of current ecological and social problems plays a key role in validating this radical approach Although numerous interpretations of the historical origins of existing social and ecological problems exist within radical ecology three main variants have been identified This thesis critically examines the three main variants of radical ecological history the belief in primal harmony the belief in the civilisation of the goddess and its destruction by a Kurgan invasion and the view that the rise of capitalism and the mechanistic world view was responsible for the ecological and social crises of today In so doing it also examines a number of key questions central to radical ecological history when did violence and hierarchy begin in human history is it possible to argue that today's ecological crisis has a religious cause and can the scientific technological and commercial revolutions be truly described as purely Western phenomena The main findings of this thesis are that each of these variants of radical ecological history is chronically flawed In addition to numerous empirical errors each of these historical interpretations is based on an extremely simplistic Eurocentric reading of the past based on the use of archetypal stereotypes of good and evil that have little or no historical foundation While these interpretations of history vary profoundly they are all based on the same underlying model of history whose origins lie in the Judeo Christian apocalyptic tradition and ultimately in Zoroastrianism While some of the flaws of radical ecological history are a result of poor scholarship it is argued that it is the use of t **Living In The Lap of Goddess** Cynthia Eller, 1995-12-20 A fascinating introduction to one of the fastest growing religious movements in the United States today Through interviews participant observation and analysis of movement literature Cynthia Eller explores what women who worship the goddess believe how they express those beliefs in private in public and in the political realm and the place of feminist spirituality in the history of American religion *Invisible Women of Prehistory* Marlene Derlet, Judy Foster, 2013-06-01 Based on many years of research into ancient history and prehistory this insightful tome argues that three million years of peace a period when women's status in society was much higher than it is now preceded the last 6 000 years of war during which men have come to hold power over women The book challenges the idea accepted in academia that history is a linear development in which society is steadily moving out of a violent and patriarchal past to a more equitable and peaceful future and it reexamines both the archaeological work of Marjia Gimbutas and recent research into the

prehistories of Africa Asia the Americas and Australia and Oceania *The Body of the Goddess* Rachel Pollack,1997 The religion of the Goddess is emerging from the shadows of the past This work explores the ancient world of the matriarchy and the re emergence of Goddess worship in modern women s lives Drawing on the works of many scholars scientists and artists it brings together history archaeology mythology and the author s own experiences and relates how the Goddess was overwhelmed by the patriarchy of Christianity

The Myth of Matriarchal Prehistory Cynthia Eller,2001-04-13 According to the myth of matriarchal prehistory men and women lived together peacefully before recorded history Society was centered around women with their mysterious life giving powers and they were honored as incarnations and priestesses of the Great Goddess Then a transformation occurred and men thereafter dominated society Given the universality of patriarchy in recorded history this vision is understandably appealing for many women But does it have any basis in fact And as a myth does it work for the good of women Cynthia Eller traces the emergence of the feminist matriarchal myth explicates its functions and examines the evidence for and against a matriarchal prehistory Finally she explains why this vision of peaceful woman centered prehistory is something feminists should be wary of

Blaze Karen Frostig,Kathy

A. Halamka, 2007 *How has feminism matured over the years? What are the pressing agendas for today's feminists working in the arts?* *Blaze: Discourse on Art, Women and Feminism* emerges as a navigational text celebrating past victories while charting new directions for today's second wave and third wave feminists. A feminist anthology, *Blaze* is comprised of feminist artists, art historians, critics, journalists, curators, interdisciplinary artists, and arts administrators of diverse backgrounds living across the United States. The book grows out of the 2006 Annual National Women's Caucus for Art (WCA) conference held in Boston, Massachusetts. *Blaze* features 15 detailed and well-documented feminist histories that narrate a number of pertinent strands of activism regarding feminist art scholarship and organizational development while exploring current crossroads. Conversations occur between myriad groups of women: second wave to third wave, third wave to second wave, second wave to second wave, third wave to women who do not identify themselves as feminists. The book addresses a number of timely issues related to representation, work, collaboration, environmental interventions, and social justice platforms. *Blaze: Discourse on Art, Women and Feminism* captures feminists, arts professionals working together across differences. In a world filled with strife, it is this form of engagement that inspires continued activism. For further information, please also see www.blazediscourse.com.

[Traveller in Space](#) June Campbell, 1996. In this revised edition of June Campbell's groundbreaking and ambitious work, many of the key issues concerning gender identity and Tibetan Buddhism are now broadened and further clarified in order to create a better understanding of the historical importance of gender symbolisation in the very construction of religious belief and philosophy. With its cross-cultural stance, the book concerns itself with the unusual task of creating links between the symbolic representations of gender in the philosophy of Tibetan Buddhism and contemporary western thinking in relation to identity, politics, and intersubjectivity. A wide range of sources are drawn upon in order to build up arguments concerning the complexities of individual gender roles in Tibetan society alongside the symbolic spaces allocated to the male and female within its cultural forms, including its sacred institutions, its representations, and in the enactment of ritual. And in the light of Tibetan Buddhism's popularity in the west, timely questions are raised concerning gender and the potential uses and abuses of power and secrecy in Tibetan Tantra, which with its unique emphasis on guru devotion and sexual ritual is now being disseminated worldwide. What is made clear in this new edition, however, is that Campbell's ultimate aim is to elucidate through the use of a psychoanalytical perspective something of the dynamic inter-relationship between the inner lives of individuals, their gender identities in society, and the belief systems which they create in order to provide cohesion, continuity, and meaning, whether it be in the east or the west.
