Revolutionary Path Kwame Nkrumah, 1973 Vietnam Thomas Hodgkin, 1981-01-01 *Populism as Governmental Practice* Toygar Sinan Baykan, 2024-06-28 *Populism as Governmental Practice* illustrates how populism functions as a phenomenon of power and draws attention to the brighter and darker consequences of populist rule for ordinary people across the world via bottom up analyses of populist experiences of government in remarkably different national contexts including Turkey Venezuela Greece India Philippines Egypt and the United States By proposing an understanding of politics that is broader than the one embraced in current populism research it focuses on a realm stretching beyond the electoral high politics of ideas ideologies discourses public performances styles and mobilization efforts The book theorizes populism as a responsive political governmental practice in congruence with the material and symbolic expectations of populist audiences and analyses it as a rich praxis of governing people and things that is blurring the boundaries between public and the private as well as formal and the informal while embracing swiftness in temporal terms Through an interpretive perspective focusing on the bounded rationalities and moral economies embedded in the populist rule and popular obedience to it this book would appeal to researchers and students of politics and its sub disciplines as well as to the non expert audience curious about the micro dynamics of populist rule 1989 in Central Europe: A Counterrevolution Paweł Ukielski, 2024-08-09 The literature on the fall of communism contains numerous interpretations of the changes that took place in Central and Eastern Europe in 1989 while debates about how best to characterize the fall of the communist regimes have raged for many years Researchers continue to ponder and argue over how revolutionary as opposed to evolutionary or reformatory these changes were In this new study author Paweł Ukielski proposes the term counterrevolution to describe the historical process that took place and uses it as an analytical construct to better understand the crisis of Soviet communism and the subsequent transitions that took place How to Localize Marxism in China Guo Jianning, 2022-12-30 This book explores frontier issues concerning the localization of Marxism in China by examining historical processes cultural implications and contemporary perspectives on this process of indigenization Emerging in the 1840s in Germany Marxism has evolved from a German European and Western idea into a Chinese Asian and Eastern one This title seeks to answer the question of how Marxism has been adapted to the Chinese context and how it migrated the regions The first three chapters chart the history of the dissemination of Marxism to adapt to Chinese conditions across three periods revolutionary times before 1949 the period of socialist construction after 1949 and the reform and opening up since 1978 The subsequent two chapters analyze the experience of the development of socialism with Chinese characteristics featuring synergistic integration with traditional Chinese culture and the combining of the basic principles of Marxism and China's real life situation The final chapter advances suggestions on how to further promote the localization of Marxism and how to develop contemporary Chinese Marxism faced with new historical conditions The book will appeal to scholars students and general

readers interested in contemporary Marxism Marxism in China and contemporary Chinese history politics and society

Toward a Cultural History of the Cold War in Turkey Fulvio Bertucelli, 2024-12-19 Turkey's position as the only Muslim majority member of NATO coupled with its pivotal role in pursuing Western interests in the Middle East and Western Europe has attracted significant scholarly attention particularly in the fields of diplomatic and international relations history. In contrast the cultural and ideological dimensions of the Cold War have begun to be studied systematically only in recent years. In this light the book is an attempt to present to an international audience some tassels of the complex mosaic of Turkey's Cold War by focusing on its cultural and ideological dimensions. Adopting a variety of disciplinary approaches the essays in this collection examine the interconnections between politics and culture the anti communist intellectual landscape and the role of cultural production and the media questioning how the global dynamics of the Cold War affected political cultural and social change in Turkey.

The Revolutionary Path Frank Buchman, 1975 Postcolonial Global Justice Shuk Ying Chan, 2025-08-19 A new account of global justice that recovers anticolonial thought for resisting a neocolonial age. Politicians and activists today turn to the language of decolonization to call attention to such issues as cultural and linguistic decline exploitative foreign investment and global institutions dominated by superpowers. But does anticolonial thought really provide a model for reimagining world politics? The history of decolonization has not resulted in the liberating transformations that many envisioned. In Postcolonial Global Justice Shuk Ying Chan proposes a new account of postcolonial global justice centered around the value of social equality. Drawing on the thought of Aimé Césaire Frantz Fanon Kwame Nkrumah and Jawaharlal Nehru Chan argues that a central theme in anticolonial thought is the rejection of hierarchy and the embrace of equality. These ideas from decolonization she suggests give us tools for critiquing contemporary global hierarchies and for rejecting postcolonial nationalism more concerned with policing its citizens than promoting their freedom and equality. Following the wave of postcolonial state founding in the twentieth century many in the West saw decolonization as largely accomplished and yet global politics continue to feature hierarchies that resemble colonial relations. Chan investigates these new and persistent colonial hierarchies across three areas of contemporary world politics international investment cultural imperialism and global governance. Exploring the changes needed to move toward a new more equal postcolonial world order Chan offers a vision of global justice rooted in the unrealized egalitarian aspirations of anticolonial thinker activists prompting us to rethink what decolonization may mean today.
