Tremor & Precision ,2002 **Studies in Psychoanalysis** Charles Baudouin,2015-04-17 Originally published in 1922 this title was intended for the expert and for the general reader The original blurb states As far as the general reader is concerned there does not yet exist a volume which gives a straightforward and thoroughly comprehensible explanation of the leading methods and theories of psychoanalysis in conjunction with an exposition of the philosophical educational and general psychological bearings of the doctrine But the author s main object is a practical one The method to which experience has led me and whose results are here recorded writes Baudouin in the first chapter is founded upon unceasing collaboration between autosuggestion and psychoanalysis Whether it be heretical or not I am confident that immense advantage can be derived from such collaboration *Diario de las sesiones ... 1838 (-1921/2)*. Spain cortes, congreso de los diputados,1880 Nature, Production, Power Fred P. Gale,R. Michael M'Gonigle,2000-01-01 This work sets out to conceptualize an ecological political economy The collection of essays offers a range of innovative analyses that highlight how changing rationalities and systems of governance production reproduction and exchange are implicated in the generation of ecological problems Metaphysics and the Sciences in Nineteenth-Century France ,2025-07-22 This volume is the first systematic study of the style of reasoning specific to the field of philosophy in nineteenth century France The chapters analyze the often dispersed responses to the fundamental question of the division of the sciences based on the reciprocal relationships of inclusion or exclusion of adversity or sorority between metaphysics and the positive sciences In line with the arrhythmic progress of the different forms of knowledge these responses renew the Condillacian criticisms of the Cartesian order of the relationships between metaphysics and physics Between a pronounced divorce and a successful marriage this volume traces the philosophical history of the various attempts at divorce or union which as the century progressed resulted in original hybridizations that aspired to define a new and ever problematic French philosophy Mr. Knife, Miss Fork ,1998 *The New Prometheans* Courtenay Raia,2019-12-04 The Society for Psychical Research was established in 1882 to further the scientific study of consciousness but it arose in the surf of a larger cultural need Victorians were on the hunt for self understanding Mesmerists spiritualists and other romantic seekers roamed sunken landscapes of entrancement and when psychology was finally ready to confront these altered states psychical research was adopted as an experimental vanguard Far from a rejected science it was a necessary heterodoxy probing mysteries as diverse as telepathy hypnosis and even s ance phenomena Its investigators sought facts far afield of physical laws evidence of a transcendent irreducible mind The New Prometheans traces the evolution of psychical research through the intertwining biographies of four men chemist Sir William Crookes depth psychologist Frederic Myers ether physicist Sir Oliver Lodge and anthropologist Andrew Lang All past presidents of the society these men brought psychical research beyond academic circles and into the public square making it part of a shared far reaching examination of science and society By layering their papers textbooks

and lectures with more intimate texts like diaries letters and literary compositions Courtenay Raia returns us to a critical juncture in the history of secularization the last great gesture of reconciliation between science and sacred truths
