Chisholm, 1981      **Reference and intentionality** Olav Asheim, 1992      **Intentionality as Constitution** Alberto Voltolini, 2024-06-28 This book develops a novel theory of intentionality It argues that intentionality is an internal essential relation of constitution between an intentional state and an object or between such a state and a possible state of affairs as subsisting The author's main claim is that intentionality is a fundamentally modal property hence a non scientifically natural property in that it does not supervene either locally or globally on its nonmodal physical basis This is the property primarily for an intentional mental state to be constituted by the entities it is about In the case of intentionality of reference such constituents are objects in the sense of individuals in the case of intentionality of content such constituents are possible states of affairs as subsisting Constitution is meant in a mereologically literal sense those constituents are essential parts of the relevant states As a result the theory claims not only that intentionality is relational but also that it is an internal essential relation holding between an intentional state and its object or proposition like content Intentionality as Constitution will be of interest to scholars and advanced students working in philosophy of mind philosophy of language metaphysics and cognitive science      *Intentionality*, 2005-01-01 This book contains eleven original papers about intentionality Some explore current problems such as the status of intentional content the intentionality of perception and emotion the connections between intentionality and normativity the relationship between intentionality and consciousness the characteristics of the intentional idiom Others discuss the work of historical figures like Locke Brentano Husserl and Frege      **Phenomenology 2005.
