**Wollheim's World's Best Science Fiction** Doland A. Wollheim, 1979-12-04 [The Road to Science Fiction: From Heinlein to Here](#) James Gunn, 2002 This volume covers the period from 1940 to 1975 beginning in the golden age of Science Fiction and ending at a time when SF book publication was just beginning to explode and SF films Close Encounters of the Third Kind Star Wars and E T would soon dominate box offices [Science Fiction and the Dismal Science](#) Gary Westfahl, Gregory Benford, Howard V. Hendrix, 2019-11-27 Despite the growing importance of economics in our lives literary scholars have long been reluctant to consider economic issues as they examine key texts This volume seeks to fill one of these conspicuous gaps in the critical literature by focusing on various connections between science fiction and economics with some attention to related fields such as politics and government Its seventeen contributors include five award winning scholars five science fiction writers and a widely published economist Three topics are covered what noted science fiction writers like Robert A Heinlein Frank Herbert and Kim Stanley Robinson have had to say about our economic and political future how the competitive and ever changing publishing marketplace has affected the growth and development of science fiction from the nineteenth century to today and how the scholars who examine science fiction have themselves been influenced by the economics of academia Although the essays focus primarily on American science fiction the traditions of Russian and Chinese science fiction are also examined A comprehensive bibliography of works related to science fiction and economics will assist other readers and critics who are interested in this subject *Colliding Worlds, Vol. 3* Kristine Kathryn Rusch, Dean Wesley Smith, 2021-04-27 Volume 3 takes the acclaimed series across time space and alternate history Ten stories each by New York Times bestselling authors Kristine Kathryn Rusch and Dean Wesley Smith
