## Science For Segregation:

Science for Segregation John P. Jackson, 2005-08 With the fiftieth anniversary of the landmark Supreme Court decision *Brown v Board of Education* now upon us many have begun to reflect upon how the case altered the course of civil rights and education in America

**Segregation's Science** Gregory Michael Dorr, 2008-11-29 Blending social intellectual legal medical gender and cultural history Segregation's Science Eugenics and Society in Virginia examines how eugenic theory and practice bolstered Virginia's various cultures of segregation rich from poor sick from well able from disabled male from female and black from white and Native American Famously articulated by Thomas Jefferson ideas about biological inequalities among groups evolved throughout the nineteenth century By the early twentieth century proponents of eugenics the science of racial improvement melded evolutionary biology and incipient genetics with long standing cultural racism The resulting theories taught to generations of Virginia high school college and medical students became social policy as Virginia legislators passed eugenic marriage and sterilization statutes The enforcement of these laws victimized men and women labeled feebleminded African Americans and Native Americans for over forty years However this is much more than the story of majority agents dominating minority subjects Although white elites were the first to champion eugenics by the 1910s African American Virginians were advancing their own hereditarian ideas creating an effective counter narrative to white scientific racism Ultimately segregation's science contained the seeds of biological determinism's undoing realized through the civil women's Native American and welfare rights movements Of interest to historians educators biologists physicians and social workers this study reminds readers that science is socially constructed the syllogism Science is objective objective things are moral therefore science is moral remains as potentially dangerous and misleading today as it was in the past
