Occult Science Rudolf Steiner, 2011-06 Written in 1909 CW 13 Given his energetic involvement in practical initiatives and extensive lecturing Steiner had very little time to write Of the books he found time to write four titles are considered indispensable introductions to his teaching as a whole How to Know Higher Worlds An Outline of Esoteric Science Intuitive Thinking As a Spiritual Path and Theosophy With the exception of his Anthroposophical Leading Thoughts and his Autobiography Steiner's important writings belong largely to his earliest work The Anthroposophy of Rudolf Steiner is not a theoretical system but the results of research based on direct observation Because his research was so vast and conducted over such a long period of time no single book can be said to contain the whole of his spiritual teaching However of all his books this one perhaps comes closest Steiner even referred to it as an epitome of anthroposophic spiritual science In a systematic way he lays out fundamental facts concerning the nature and constitution of the human being and in chronological order the history of the universe and humankind Whereas the findings of natural science are derived from observations made through the senses the findings of spiritual science are occult inasmuch as they arise from direct observation of realities hidden to ordinary human perception Nevertheless these elements of humanity and the universe form the foundation of the sensory world A substantial part of this important work describes the basic training needed to make such spiritual observations Although Occult Science is not all inclusive it is indispensable to any serious student who wishes to master Steiner's extraordinary philosophy and methods of inner development Rudolf Steiner Press published this series of re-edited re-formatted and re-designed editions of the classic authorized translations of Rudolf Steiner's foundational books printed in a limited edition of 1 000 copies and sewn bound in high quality cloth finished with colored end papers and a bookmark ribbon Occult Science An Outline is a translation from German of Die Geheimwissenschaft im Umriss GA 13 *Light*, 1930
