Network Security Manager:

Industrial Network Security David J. Teumim, 2010 Whether we talk about process control systems that run chemical plants supervisory control and data acquisition systems for utilities or factory automation systems for discrete manufacturing the backbone critical infrastructure consists of these industrial networks and is dependent on their continued operation This introduces managers engineers technicians and operators on how to keep industrial networks secure amid rising threats from hackers disgruntled employees and even cyberterrorists [Wireless Network Security: Concepts and Techniques](#)
