

**E**l teatro es un arte paradójico: a un tiempo producción literaria y representación concreta, indefinidamente eterno e instantáneo; arte de la representación, flor de un día, jamás el mismo de ayer. Y, no obstante, siempre queda de él algo permanente, que al menos teóricamente, habrá de seguir intangible, fijado para siempre en el texto.

El propósito del presente libro es proporcionar al lector algunos procedimientos de lectura del texto teatral, mostrando simultáneamente los lazos que unen esta práctica con la de la representación.

El profesor Torres Monegal, conocido por sus publicaciones sobre literatura dramática, ha traducido el texto francés y ha introducido en la versión castellana las notas oportunas y los ejemplos de teatro español.
