

A scenic view of a mountain peak, likely El Capitan, with a quote overlaid. The background shows a rugged, rocky mountain face on the left and a valley with a river and distant mountains under a hazy sky. The quote is presented in three stacked dark rectangular boxes with white text.

I don't have any sentimental  
notion about how people  
are going to remember me.

*A Sentimental Notion (Large Print)*. Jan McDaniel,1995 Dale Addison is visiting her grandparents for awhile so that she can regroup after losing her job in the city While there Dale co organizes the small town s annual festival with a local Mason Travers Intent on avoiding any kind of emotional attachments Mason is nonetheless enchanted by Dale Dale is interested but she ll soon be heading back to the city Can these two people who are so right for each other overcome their belief that love is all wrong for them

**The Sentimental Education of the Novel** Margaret Cohen,2018-06-05 The nineteenth century French novel has long been seen as the heroic production of great men who confronted in their works the social consequences of the French Revolution And it is true that French realism especially as developed by Balzac and Stendhal was one of the most influential novelistic forms ever invented Margaret Cohen however challenges the traditional account of the genesis of realism by returning Balzac and Stendhal to the forgotten novelistic contexts of their time Reconstructing a key formative period for the novel she shows how realist codes emerged in a hostile take over of a prestigious contemporary sentimental practice of the novel which was almost completely dominated by women writers Cohen draws on impressive archival research resurrecting scores of forgotten nineteenth century novels to demonstrate that the codes most closely identified with realism were actually the invention of sentimentality a powerful aesthetic of emerging liberal democratic society although Balzac and Stendhal trivialized sentimental works by associating them with frivolous women writers and readers Attention to these gendered struggles over genre explains why women were not pioneers of realism in France during the nineteenth century a situation that contrasts with England where women writers played a formative role in inventing the modern realist novel Cohen argues that to understand how literary codes respond to material factors it is imperative to see how such factors take shape within the literary field as well as within society as a whole The book also proposes that attention to literature as a social institution will help critics resolve the current vital question of how to practice literary history in the wake of poststructuralism

**Blameworthy Belief** Nikolaj Nottelmann,2007-07-18 Believing the wrong thing may sometimes have drastic consequences The question as to when a person is not only ill guided but genuinely at fault for holding a particular belief is an important one It touches upon the roots of our understanding of such notions as criminal negligence and moral responsibility The answer to this question may influence the extent to which we are willing to submit each other to punishments ranging from mild resentment to harsh prison terms This book presents an extensive effort to shed light on the conditions under which we may appropriately deem someone blameworthy for holding a particular belief It regiments and unifies several debates within contemporary epistemology ethics and legal scholarship Finally the book brings a new philosophical look on issues like our power to control beliefs and the extent and nature of foresight

**The Anglican Communion at a Crossroads** Christopher Craig Brittain,Andrew McKinnon,2018-04-17 Worldwide debates over issues of sexuality and gender have come to a head in recent years in mainline and evangelical churches with the Anglican

Communion a worldwide network of churches that trace their practice to Canterbury and claim some 85 million members among the most publicly visible sites of contestation This thorough and compelling analysis of the conflicts within the Communion argues that they are symptoms of long simmering issues that must be addressed when Anglican bishops and archbishops meet at the 2020 Lambeth Conference To many the disagreements over such issues as LGBTQ clergy same sex marriage and women s ordination suggest an insurmountable crisis facing Anglicans one that may ultimately end the Communion Christopher Craig Brittain and Andrew McKinnon argue otherwise Drawing on extensive empirical research and interviews with influential Anglican leaders they show how these struggles stem from a complex interplay of factors notably the forces and effects of globalization new communications technology and previous decisions made by the Communion In clarifying both the theological arguments and social forces at play as the bishops and primates of the Anglican Communion prepare to set the Church s course for the next decade Brittain and McKinnon combine sociological and theological methodologies to provide both a nuanced portrait of Anglicanism in a transnational age and a primer on the issues with which the Lambeth Conference will wrestle Insightful informative and thought provoking *The Anglican Communion at a Crossroads* is an invaluable resource for understanding the debates taking place in this worldwide community Those interested in Anglicanism sexuality and the Christian tradition the sociology of religion and the evolving relationship between World Christianity and churches in the Global North will find it indispensable
