Drawing Deportation Silvia Rodriguez Vega, 2023-02-14 Illustrates how the children of immigrants use art to grapple with issues of citizenship state violence and belonging Young immigrant children often do not have the words to express how their lives are shaped by issues of immigration legal status and state sanctioned violence Yet they are able to communicate its effects on them using art Based on ten years of work with immigrant children as young as six years old in Arizona and California and featuring an analysis of three hundred drawings theater performances and family interviews Silvia Rodriguez Vega provides accounts of children s challenges with deportation and family separation during the Obama and Trump administrations While much of the literature on immigrant children depicts them as passive when viewed through this lens they appear as agents of their own stories The volume provides key insights into how immigrant children in both states presented creative out of the box powerful solutions to the dilemmas that anti immigrant rhetoric and harsh immigration laws present Through art they demonstrated a righteous indignation against societal violence dehumanization and death as a tool for navigating a racist anti immigrant society When children are the agents of their own stories they can reimagine destructive situations in ways that adults sometimes cannot offering us alternatives and hope for a better future At once devastating and revelatory *Drawing Deportation* provides a roadmap for how art can provide a safe and necessary space for vulnerable populations to assert their humanity in a world that would rather divest them of it **On Depiction: Selected**

Writings on Art Avigdor Arikha, 2019-08-25 A marvellous book which teaches us how to see There is not a word out of place And the author s seriousness allows us to feel his full passion what really matters for him This book will provide me lasting company and I will often look in its pages for backing for my own judgements Jean Starobinski When a great painter also happens to be an intelligent and cultivated one his observations on art count a hundred times more than a critic s or a historian s do A man s knowledge of his own craft is both irreplaceable and indispensable Simon Leys Throughout his whole development I have never ceased to admire the acuteness of his vision and his faultless insight into the art of the past Samuel Beckett Avigdor Arikha was one of the most important artists of the twentieth century He was born in Romania to German speaking Romanian Jewish parents and spent most of his life in Paris A talented child he started drawing early on During the Second World War he was deported to a concentration camp in the Ukraine where he drew the horrors he witnessed These drawings saved his life During the 1950s he established himself in Paris and was enjoying a successful career as an abstract painter In 1965 a Caravaggio exhibition prompted him to convert to drawing from life He stopped using colour until 1973 when he started again to paint He worked with a religious almost war like intensity until his death Arikha was also an erudite and passionate scholar endowed with a deep understanding of the history of art and its techniques well versed in world history and fascinated by science He wrote many essays and curated important exhibitions of masters such as Poussin Velazquez and Ingres In this collection of essays that he wrote between 1965 and 1994 Arikha expounds on art and artists

Mantegna Vel zquez Poussin David Ingres Degas Matisse and more technique seeing and the state of culture in his day which one could argue is no more hopeful today almost thirty years later **Lands Beyond Box Set: Books 1-3** Kin S.

Tourism, Urbanization, and the Evolving Periphery of the European Union Max Holleran, 2019-10-25 This book explores travel tourism and urban development at the edges of Europe from the 1970s until the present It compares tourism spurred urban growth in Spain and Bulgaria showing how development in Southern Europe after the fall of dictatorships provided a model for integrating post socialist Europe in the 1990s It analyzes the economic cultural and political dimensions of tourist economies showing how they aligned with major European Union integration goals and were supported with EU development funds It also chronicles the social and environmental costs of mass tourism where over development has despoiled beachfronts and promoted low paying service jobs reinforcing regional divisions in Europe between those who host and those who visit Ultimately it argues that while mass tourism is touted as a viable economic solution to EU inequality it can potentially exacerbate disparities between core and peripheral zones creating new and troubling forms of regional polarization
