01

Preventive action aims to avoid the initial occurrence of a non-conformity by proactively implementing improvements.

02

Preventive action may result i.e., from the trending of in-process data, analytical data, audit findings, product quality reviews and quality risk analyses, etc.

Information regarding preventive actions, including costs and cost savings, should be regularly subject to management review.

04

Similar to corrective actions, agreed preventive actions should be closely followed-up & monitored until their completion.
