**The Rhinencephalon and Related Structures** ,1963-01-01 *The Rhinencephalon and Related Structures* *The Anatomy of "Paleocortex"* Robert M. Pigache,2012-12-06 The prime purpose of this paper is to look at the region of brain which many authors call paleocortex and to ask how much of the area it embraces can be described properly as cortex Before this can be considered it is necessary to have some idea of what constitutes a cortex Therefore in the first part of the paper the criteria used in constructing classifications of cortex are looked into Also considered is the meaning of classifications such as paleocortex Is it relevant to define cortex in this way How does this view correlate with a functional approach The second purpose of this paper of equal importance to the first is to review terminology Each area of paleocortex has a review introduction that endeavors to cut through the existing jungle of terms and usage and to provide a clear account of the area in question prior to examining its standing as cortex The term paleocortex is in common use and for this reason it is worth close examination Kappers 1909 first created the term to supplement the earlier division of cortex into archicortex and neocortex introduced by Elliot Smith Kappers applied the term to the mantle layer of the most primitive vertebrates cyclostomes and selachians the whole of which receives secondary olfactory fibres
