|--|--------------|
| 1. Hardening, Tempering and Heat Treatment | "Tubal Cain" |
| 2. Vertical Milling in the Home Workshop | Arnold Throp |
| 3. Screwcutting in the Lathe | Martin Cleve |
| 4. Foundrywork for the Amateur | B. T. Aspin |
| 5. Milling Operations in the Lathe | "Tubal Cain" |
| 6. Measuring and Marking Metals | Ivan Law |

6. Measuring and Marking Metals

Although much of model engineering work is a matter of making one part to fit another and thus may obviate the need for the sophisticated means of measuring often called for in production engineering, the accuracy of a finished job begins with the exactness of the initial marking out and continues with the accuracy of measurements made during the progress of the work. How to use measuring equipment and how to mark out work — not always the simple matter it might at first seem — are essential skills for any engineer and the purpose of this book is to show how they may be acquired and employed.

The author, Ivan Law, is a very experienced and much-respected engineer who will be known to many readers for, particularly, his lucid and practical demonstrations and explanations over many years at the annual Model Engineer Exhibition.
