Going Beyond Marie-Theres Albert, Francesco Bandarin, Ana Pereira Roders, 2017-09-18 This volume looks at sustainable protection and sustainable use of cultural and natural heritage particularly in view of the current challenges of the 21st century For more than 40 years the World Heritage Convention has regulated the protection of the cultural and natural heritage of humankind particularly in that heritage shall be protected if it is threatened by modern development The international community has also adopted sustainability and sustainable development as objectives to facilitate the protection of cultural and natural heritage Sustainable heritage protection and use must therefore be preserved in the face of the global challenges it faces and must be perceived in terms of societal political and corresponding economic paradigms *Beyond the Divide* Tammy Gaber, 2022-02-23 Canada's first mosque the Al Rashid mosque in Edmonton was built in 1938 In the years since as Canada's Muslim population has grown close to two hundred mosques Islamic centres prayer spaces and jamatkhans have been built across the country *Beyond the Divide* explores the mosques of Canada in their diversity beauty practicality and versatility From east to west and to the north Tammy Gaber visits ninety mosques in more than fifty cities including Canada's most northern places of worship in Nunavut and the Northwest Territories For nearly a century Muslims have made mosques in a variety of spaces from converted shops and vacated churches to large purpose built complexes Drawing on site photographs architectural drawings and interviews Gaber explores the extraordinary diversity in how these spaces have been designed built and used as places not only of worship but of community gathering education charitable work and civic engagement Throughout *Beyond the Divide* provides a groundbreaking analysis of gendered space in Canadian mosques how these spaces are designed and reinforced and how these divides shape community experience The first comprehensive study of mosque history and architecture in Canada *Beyond the Divide* reveals the mosque to be a dynamic building type that adapts to its context from its climate and physical environment to the community it serves Above all mosque designs depend on the people who gather in them and what those people strive for their mosques to be **Gulf Charities and Islamic Philanthropy in the 'Age of Terror' and Beyond** Robert Lacey, Jonathan Benthall, 2014-12-31 *Gulf Charities and Islamic Philanthropy in the Age of Terror and Beyond* is the first book to be published on the charities of Saudi Arabia and the Arabian Gulf covering their work both domestic and international From a diversity of viewpoints the book addresses the historical roots of Islamic philanthropy in religious traditions and geopolitical movements the interactions of the Gulf charities with Western relief and development institutions now under pressure owing to budgetary constraints numerous case studies from the Middle East Africa and South Asia the impact of violent extremism on the sector with the legal repercussions that have followed especially in the USA the recent history of attempts to alleviate the obstacles faced by bona fide Islamic charities whose absence from major conflict zones now leaves a vacuum for extremist groups to penetrate the prospects for a less politicized Islamic charity sector when the so called war on terror eventually loses its salience

The Last Prophet Mosab Hassan Yousef, James Becket, 2025-01-21 Death comes easily in the seventh century Arabian desert from hunger and thirst to the relentless sun to war and raiding tribes who take by force the scarce resources needed to survive In this harsh land the powerful city of Mecca is a beacon famous for its well which provides abundant life giving water and its great temple where pilgrims come to worship the totems of hundreds of gods It is here that the prophet Muhammad is born

Far Far Beyond Berlin Craig Meighan, 2021-03-19 Even geniuses need practice Not everything goes to plan at the first attempt In Da Vinci's downstairs loo hung his first borderline insulting versions of the Mona Lisa Michelangelo's back garden was chock a block full of ugly lumps of misshapen marble Even Einstein committed a great blunder in his first go at General Relativity God is no different this universe may be his masterpiece but there were many failed versions before it and they're still out there Far Far Beyond Berlin is a fantasy novel which tells the story of a lonely disillusioned government worker's adventures after being stranded in a faraway universe Joy World God's first disastrous attempt at creation God's previous universes a chain of 6 now abandoned worlds are linked by a series of portals Our jaded hero must travel back through them past the remaining dangers and bizarre stragglers He'll join forces with a jolly eccentric and visually arresting crew of sailors on a mysteriously flooded world He'll battle killer robots and play parlour games against a clingy supercomputer with his life hanging in the balance He'll become a teleportation connoisseur he will argue with a virtual goose it sure beats photocopying Meanwhile high above in the heavens an increasingly flustered God tries to manage the situation with His best friend Satan His less famous son Jeff and His ludicrously angry angel of death a creature named Fate They know that a human loose in the portal network is a calamity that could have apocalyptic consequences in seven different universes Fate is dispatched to find and kill the poor man before the whole place goes up in a puff of smoke if he can just control his temper Cover art Gordon Miller
