## **Shaping The Discourse On Space:**

*Shaping the Discourse on Space* Teresita Martínez-Vergne, 1999 As an inchoate middle class emerged in Puerto Rico in the early nineteenth century its members sought to control not only public space but also the people activities and even attitudes that filled it Their instruments were the San Juan town council and the Casa de Beneficencia a state run charitable establishment charged with responsibility for the poor In this book Teresita Martínez Vergne explores how municipal officials and the Casa de Beneficencia shaped the discourse on public and private space and thereby marginalized the worthy poor and vagrants liberated Africans indigent and unruly women and destitute children Drawing on extensive and innovative archival research she shows that the men who comprised the San Juan ayuntamiento and the board of charity regulated the public discourse on topics such as education religious orthodoxy hygiene and family life thereby establishing norms for correct social behavior and chastising the deviant lifestyles of the working poor This research clarifies the ways in which San Juan s middle class defined itself in the midst of rapid social and economic change It also offers new insights into notions of citizenship and the process of nation building in the Caribbean
