Radical, Rational, Space, Time Paul Berger, Leroy Searle, Douglas Wadden, 1983 **Before-and-After Photography** Jordan Bear, Kate Palmer Albers, 2020-09-25 The before and after trope in photography has long paired images to represent change whether affirmatively as in the results of makeovers social reforms or medical interventions or negatively in the destruction of the environment by the impacts of war or natural disasters This interdisciplinary multi authored volume examines the central but almost unspoken position of before and after photography found in a wide range of contexts from the 19th century through to the present Packed with case studies that explore the conceptual implications of these images the book s rich language of evidence documentation and persuasion present both historical material and the work of practicing photographers who have deployed and challenged the conventions of the before and after pairing Touching on issues including sexuality race environmental change and criminality Before and After Photography examines major topics of current debate in the critique of photography in an accessible way to allow students and scholars to explore the rich conceptual issues around photography s relationship with time and imagination *North American Women Artists of the Twentieth Century* Jules Heller, Nancy G. Heller, 2013-12-19 First Published in 1997 North American Women Artists of the Twentieth Century A Biographical Dictionary was created to fill a gap of there being a comprehensive reference work like this available even though the bibliography in English on various aspects of the history of women artists has grown exponentially during the past ten years As researchers the editors have been frustrated many times by being unable to locate basic information about many of the artists included in this volume especially those working outside the United States This leads directly to another reason for producing this particular kind of reference book to try and create a better understanding between and among the artists and art audiences in these countries **History of Photography** Laurent Roosens, Luc Salu, 1989-01-01 The fourth volume in a history of photography this is a bibliography of books on the subject *Space, Time, and Causality* John Randolph Lucas, 1984 *Space Time and Causality An Essay in Natural Philosophy* **Pacific Rim Design** Wei Yew, 1991 **Present Tense** Susan Kismaric, JoAnn Verburg, 2007 Through such formal devices as series and multipanel works JoAnn Verburg invigorates some of photography s common themes the portrait the landscape the domestic view Some of her work catches viewers off guard leaving them unsure where they stand in relationship to the scene being shown others play with the passage of time offering narratives that play out in either space or time or both or neither The intimate spaces of personal life are another of her ongoing themes as shown in a series featuring her husband the poet Jim Moore reading newspapers or books or sleeping The unguarded intimacy of the image strikes one note here the tension and reality of the current events featured on that day s newspaper strikes another reaching out of the work into the world expanding photography s space even further Whether taking pictures of artists swimmers trees or pyramids constructed from sand Verburg deftly pushes at the boundaries of the representation of time and space *Robbert Flick* Robbert Flick, Michael J.
