[Democracy in Latin America](#) Geraldine Lievesley, 2024-07-30 This book offers an insight into the democratic processes and institutions in Latin and Central America It analyses the different political systems and the challenges to them from the Left and popular movements Lievesley questions how far democracy is embedded in Latin and Central American and asks what constitutes citizenship in political cultures which remain highly differentiated in terms of the structures and relations of power She does this through an evaluation of the two distinct perspectives of democracy the liberal pacted and the radical participatory models Established political systems systems in transition from military to civilian rule and Socialist systems are viewed through the prism of these two models The inter relationship between state military political parties and popular movements are examined with a view to determining the possibility of the emergence of a new politics which would be inclusion rather than exclusionary and would pursue social justice The book will provide a stimulating assessment of the region's politics for undergraduates and will provoke debate for postgraduates

Searching for a Better Society John Sheahan,2010-11-01 As in most of the rest of Latin America Peruvian economic strategy has gone in something of a circle from long established orientation toward an open economy with minimal state intervention to a period of state led development then back again to what looks like the starting point In the 1960s the Peruvian people had their first real chance to make a democratic choice between continuation of the country s open economy orientation or change they chose change Using this as his starting point Sheahan explains how their choice was not provoked by any economic crisis but by other major influences The majority of Peruvians he shows were seeking objectives more fundamental than economic growth They were with conflicting visions but with many good reasons searching for a better society While positive accomplishments have been important enough went wrong to lead Peru back to a more market determined economic system in 1990 Sheahan addresses the consequences of this return to the earlier economic strategy what might be done to shape the process of development in Peru in Latin America more generally toward less unfair societies Searching for a Better Society is different from the great majority of economic studies of developing countries in its emphasis on the basic role of social dissatisfaction with the country s traditional liberal economic system on the complexity of social goals involved in evaluation of the choice consequences of economic policies
