## **Ruling Class:**

The Powers that be G. William Domhoff, 1979 Though United States legislators pass laws almost yearly that appear to guarantee a fairer split of the nation's wealth statistics show that the very rich still control much more than their fair share of the country's money This wealthy ruling class is a very small social upper class at most 0.5 percent of the population and yet it dominates the government and subordinates the other social classes as well as controls over 25 percent of the nation's privately held wealth and yearly income What is often not clear is the process by which this clearly demarcated ruling class is able to dominate William Domhoff concentrates on this process in *The Powers That Be* In many ways a natural evolution from his earlier books such as *The Higher Circles Who Rules America* and *The Bohemian Grove and Other Retreats* this provocative analysis shows how the owners and managers of large banks and corporations obtain special interest tax breaks subsidies and other economic favors from the government It also examines the process through which they dominate government regulatory policy foreign policy economic development programs the candidate selection process and even the dissemination and enforcement of beliefs and attitudes that permit the continued existence of policies and politicians favorable to the wealth income status and privileges of members of the ruling class

**Networks and Social Power in Australia and New Zealand** Georgina Murray,2006 It is often asserted that the ruling elite in Western capitalist economies now consists of liberal intellectuals and their media sympathisers By contrast this book looks at the real elite in Australian and New Zealand society and shows that there is still a ruling class based upon economic dominance From an analysis of corporate and public records interviews and other primary and secondary data it develops a picture of networks of power that are changing but are as real as any network in the past      *Classical and Contemporary*

*Sociological Theory* Scott Appelrouth,Laura Desfor Edles,2008 A unique hybrid of text and readings this book combines the

major writings of sociology's core classical and contemporary theorists with an historical as well as theoretical framework for understanding them. Laura Desfor Edles and Scott A. Appelrouth provide not just a biographical and theoretical summary of each theorist reading but an overarching scaffolding which students can use to examine, compare, and contrast each theorist's major themes and concepts. No other theory text combines such student-friendly explanation and analysis with original theoretical works. Key features include pedagogical devices and visual aids: charts, figures, and photographs to help summarize key concepts; illuminate complex ideas; and provoke student interest. Chapters on well-known figures such as Marx, Weber, Durkheim, Parsons, and Foucault, as well as an in-depth discussion of lesser-known voices such as Charlotte Perkins Gilman, WEB Du Bois, and Leslie Sklair. Photos of not only the theorists but of the historical milieu from which the theories arose, as well as a glossary at the back.
