## **Of Two Minds:**

**Of Two Minds** Carol Matas, Perry Nodelman, 1995 Follows the adventures of two royal teenagers who possess extraordinary mental powers

**Of Two Minds** Sylvia Madrigal, 2005 Emily D az has spent her whole life in two worlds As a child of Mexican parents in South Texas she maneuvered the terrain of two cultures two economic classes and two languages At Yale the discovery that she is in love with a woman sends her into a vortex of self doubt that fragments her worlds even further In Boston she must face the divide between her outward heterosexual world and her internal emotional desires Finally she must risk destroying her relationship with her devoutly Mexican mother by telling the truth about who she is

*Being of Two Minds* Pamela F. Service, 1992-10-24 Connie Hendricks was a typical American teen except for her dizzy spells when she would pass out When this happened she entered the mind and soul of Prince Rudolph the fourteen year old heir apparent of Thulgaria a small European country Prince Rudolph had spells too when he entered Connie s mind and life Everything was just fine and their trick was their special secret until Rudolph was kidnapped while Connie was inside his mind

**Being of Two Minds** Arnold I. Goldberg, 2013-06-17 From the unfaithful husband to the binge eater from the secret cross dresser to the pilferer of worthless items there are those who seem to live two lives to be divided selves to be literally of two minds This division or vertical split appears in a person at odds with himself a person who puzzles over and even heartily dislikes that parallel person who behaves in so repugnant a manner In *Being of Two Minds* Arnold Goldberg provides trenchant insight into such divided minds their origins their appearances and their treatment Goldberg s inquiry into divided minds leads to a return to the psychoanalytic concept of disavowal which forms the basis of the vertical split Goldberg explores the developmental circumstances that tend to a reliance on disavowal provides numerous examples of the emergence of disavowal in the treatment situation and considers the therapeutic approaches through which disavowal may be addressed He is especially perceptive in discussing the manner in which the therapist s own tendency to disavow may collusively interact with that of the patient Goldberg considers the full range of splits to which disavowal gives rise from circumscribed instances of dissociation to the much debated multiple personality disorders He gives special attention to the role of the vertical split in patients with behavior disorders here his thoughtful insights point to a treatment approach that significantly

differs both from the simple ascription of a self disorder and from the usual pedagogical emphasis on issues of self control and or punishment As Goldberg shows the repugnance felt by many therapists for offensive behaviors emanating from the patient s parallel self are frequently shared by the patient who commonly despises misbehavior that he is unable to understand Being of Two Minds begins to formulate just such understanding to the great benefit of patient and therapist alike

Being of Two Minds Jonathan Goldberg,2022-09-20 Being of Two Minds examines the place that early modern literature held in Modernist literary criticism For T S Eliot Virginia Woolf and William Empson the early modern period helps model a literary future At stake in their engagements across time were ontological questions about literature and its ability to mediate between the one and the many the particular and the general life and death the past and the present If reading and writing literature enables the mind to be in two places at once creative experience serves as a way to participate in an expanded field of consciousness alongside mortality Goldberg reads the readings that these modernists performed on texts that Eliot claimed for the canon like the metaphysical poets and Jacobean dramatists but also Shakespeare Milton Montaigne and Margaret Cavendish Ontological concerns are reflected in Eliot s engagement with Aristotle s theory of the soul and Empson s Buddhism These arguments about being affect minds and bodies and call into question sexual normativity Eliot glances at a sodomitical male male mode of literary transmission Woolf produces a Judith Shakespeare to model androgynous being Empson refuses to distinguish activity from passivity to rewrite gender difference The work of one of our leading literary and cultural critics Being of Two Minds spans centuries to show how the most compelling and surprising ideas about mind experience and existence not only move between early modernity high modernism and our own moment but are also constituted through that very movement between times and minds

*Two Minds* Roger S. Frantz, 2005 The Two Minds noted economist Roger Frantz explores in this landmark book are first the analytical mind and second the intuitive mind In part one he presents the leading theories on intuition discusses recent developments in cognitive science and borrows from such non-economist intuitors as Albert Einstein Jonas Salk Henri Poincare Ludwig von Beethoven and Robert Louis Stevenson to explore the role of intuition in science and creativity In part two Frantz considers the presumably analytic and logical nature of economics and then demonstrates the many ways in which economists from Adam Smith to Herbert Simon have relied on intuition as a fruitful mental activity This book provides a rich complement and alternative perspective to some of the theoretical and mathematical models that have dominated the dismal science since the late 1940s

*Persons and Minds* Joseph Margolis, 2012-12-06 Persons and Minds is an inquiry into the possibilities of materialism Professor Margolis starts his investigation however with a critique of the range of contemporary materialist theories and does not find them viable None of them he argues can accommodate in a convincing way the most distinctive features of the mental life of men and of lower creatures and the imaginative possibilities of discovery and technology p 8 In an extraordinarily rich analysis Margolis carefully considers and criticizes mind-body identity theories physicalism eliminative materialism behaviorism as inadequate precisely in that they are reductive He argues then for ramified concepts of emergence and embodiment which will sustain a philosophically coherent account both of the distinctive non-natural character of persons and of their being naturally embodied But Margolis provokes us to ask what is an embodied mind The crucial context for him is not the plain physical body as such but culture Persons he writes are in a sense not natural entities they exist only in cultural contexts and are identifiable as such only by reference to their mastery of language and of whatever further abilities presuppose such mastery p 245 The hallmark of persons in Margolis's account is their capacity for freedom as well as their physical endowment Thus he writes their characteristic powers in effect their freedom must inform the order of purely physical causes in a distinctive way p 246
