

MONOPOLY[®]

Property Trading Game from Parker Brothers[®]

AGES 8+
2 to 8 Players

Contents: Gameboard, 3 dice, tokens, 32 houses, 12 hotels, Chance and Community Chest cards, Title Deed cards, play money and a Banker's tray.

Now there's a faster way to play MONOPOLY. Choose to play by the classic rules for buying, renting and selling properties or use the Speed Die to get into the action faster. If you've never played the classic MONOPOLY game, refer to the Classic Rules beginning on the next page. If you already know how to play and want to use the Speed Die, just read the section below for the additional Speed Die rules.

SPEED DIE RULES

Learning how to play with the Speed Die is as fast as playing with it.

1. When starting the game, hand out an extra \$1,000 to each player (two \$500s should work). The game moves fast and you'll need the extra cash to buy and build.
2. Do not use the Speed Die until you've landed on or passed over GO for the first time. Once you collect that first \$200 salary, you'll use the Speed Die for the rest of the game. This means that some players will start using the die before others.
3. Once you start using the Speed Die, roll it along with the two white dice on your turn. Then do the following depending on what you rolled.

- 1, 2, or 3: Add this number to the roll of the two white dice. You'll zoom around the board.

Lele,2005-08-30 Competition is the bane of the free enterprise system Anonymous business mogul What people on the front lines making marketing and selling products and services really want is to be alone in the marketplace to have a space that they own for a long enough period of time so they can make some real money In this short powerful book Milind Lele shows you how Conventional wisdom attributes winning to having the best products at the lowest prices a great brand superior management and the lowest overhead All are obviously of great importance but in actuality anyone can achieve them Dr Lele shows that winning comes from focusing on these monopoly rules What patch of open market space does this business own or could it own Is the space really open or is it wishful thinking Are there enough customers whose needs are not being met and are they willing to spend money to have those needs met How long will this space remain open and why What do you have to do to capture it and wall it off When will the party end and what do we do next For example for many coffee lovers there is no one but Starbucks The moment people found out what coffee could and should taste like it was as if a giant lightbulb went off inside their heads and Starbucks had a monopoly The best monopoly opportunities are situational often soft and intangible They re segments not the mass market and often in the customer s mind For the customer there is no one but you since what you provide can t be easily copied duplicated or ripped off Monopoly Rules couldn t come at a better time as an almost perfect storm seems to be hitting every business Customers are changing and the homogenous mass market has gone the way of the nickel soda Now the game is winning market segments In this world Monopoly Rules provides a new way to think and take action and stay ahead of the game Also available as an eBook **Constitution and By-laws of the American Water Works Association, Together with the Proceedings of the ...
