Missing Majority:

The Springer Index of Viruses Christian Tidona, Gholamreza Darai, 2011-10-13 The continuous growth of knowledge makes it very difficult for scientists to retrieve comprehensive and accurate data on viruses The desired information is often dispersed in a variety of books journals and online resources This encyclopedia presents the latest facts about all known viruses in a standardized form created by hundreds of the world's leading virologists Virus taxonomy represents the basic framework that allows an understanding of the complex evolutionary process that continuously takes place among viruses and their hosts Each of the 300 taxonomically ordered chapters includes detailed information on individual genus members historical events the hosts they can affect animal man or plant virion morphology genome properties replication strategy properties of individual transcripts and proteins sequence accession numbers biological properties diseases recombinant vector constructs vaccine strains key references as well as a high resolution particle image and a drawing of the genome organization Its high content of easily accessible detailed information makes this Encyclopedia an indispensable tool for both researchers and lecturers The new edition includes the recent discoveries made in this field as well as new viruses which have been discovered

Presidentialism, Parliamentarism, and Democracy Jose Antonio Cheibub, 2007 This book questions the reasons why presidential democracies more likely to break down than parliamentary ones

Parallel Minds Laura Tripaldi, 2022-05-31 Insights into the intelligence throughout the natural and technical environment in the fabric of our devices and dwellings in our clothes and under our skin Is there a way to understand the materials that surround us not as passive objects but as other intelligences interacting with our own In Parallel Minds expert in materials science and nanotechnology Laura Tripaldi delivers not only detailed insights into the properties and emergent behaviors of matter as revealed by state of the art chemistry synthetic biology and nanotech but also a rich philosophical reflection that crosses the frontier between nature and culture where the most cutting edge scientific syntheses resonate with ancient myth The result is a technomaterial bestiary full of unexpected encounters with strange minds from cobwebs to kevlar and carbon fibre from centaurs to amoebas to arachnids from polycephalic slime to resonating plasmons from viruses to golems Parallel Minds reveals the intelligence at large throughout the natural and technical environment in the fabric of our devices and dwellings in our clothes and even under our skin Full of lateral ideas and unexpected images Tripaldi's book imbues the study and synthesis of materials with a new urgency For not only do the materials that surround us participate actively in the construction of the world in which we live but harnessing their ability to interact intelligently with their environment could be the key to the future of our species
