Mask Of Religion:

Ritual Masks Henry Pernet,2006-03-01 Ritual masking is an important institution in many traditional societies and has attracted much attention from Western scholars In Ritual Masks Pernet provides a thorough survey of masks and masking traditions in Africa Oceania and the Americas based on a close analysis of the literature in several languages Pernet s approach provides him with an opportunity to examine issues of importance to the history of religion and anthropology These include the influence of theory on the interpretation of prehistoric documents androcentrism in anthropology and the history of religions and Western scholarship s recurrent problems in interpreting preliterate or traditional societies

The Masks of Christ Lynn Picknett,Clive Prince,2008-11-11 From the gnostic gospels to the Nativity religious mythology immortalized Jesus his personality his actions his words but what if they didn t tell the truth Although an entire religion is based on his teachings Jesus himself did not record any written accounts of his life or faith He taught his followers orally and our only sources about what Jesus actually said and believed the Gospels were written long after his lifetime But the Gospel authors had their own agendas to promote and most certainly altered even distorted their leader s message In The Masks of Christ bestselling authors Lynn Picknett and Clive Prince peel away layers of mythology canonical revisions Church propaganda and censorship in order to reveal who Christ really was and discover his true message to the followers of Christianity Stripping away centuries of misinformation Picknett and Prince dispel religious myths unearth historical truths and uncover the real stories behind some of the Bible s most famous tales including how Christ s long hidden relationships with John the Baptist and Mary Magdalene shaped his beliefs and religious mission Drawing on objective research Picknett and Prince present the living breathing Jesus and provide a context for Jesus teachings in the time and society in which he lived and most important guidance on what the life and lessons of Jesus Christ mean to everyone today

Behind the Mask of Hypocrisy The Hidden Faces of Deception by Joseph Habimana Ngoma We live in an age where appearance is worshiped more than truth People smile in public but bleed in secret Churches perform holiness while hiding sin Nations speak of justice yet practice corruption This is the masked generation a world where hypocrisy wears the robes of religion the language of love and the face of light In this powerful and prophetic book Joseph Habimana Ngoma tears through the illusions that have deceived families churches and societies With piercing biblical insight he exposes how hypocrisy once a mere behavior has become a ruling spirit shaping politics religion business and personal life Each chapter unmasks a new layer of deceit from spiritual pretense to moral compromise revealing how pride falsehood and hidden sin destroy the human soul Yet this book is not a message of condemnation but of redemption It calls every reader to remove the mask return to

truth and walk in the light of Christ Behind the Mask of Hypocrisy is both a warning and a wake up call a trumpet for a sleeping generation to repent be purified by the fire of the Holy Spirit and live with one face before God and man For nothing is hidden that will not be revealed nor anything secret that will not be made known Luke 8 17

Behind the Masks of God Robert C. Neville,1991-01-01 Behind the Masks of God develops an abstract concept of creation ex nihilo to compare and contextualize many of the symbols and more concrete ideas of divinity in world religions The first focus is Christianity and the book is put forward as an essay in Christian theology In addition the essay asks how creation ex nihilo serves to relate Christianity to other religions particularly those of China Neville addresses both Buddhism and Christianity and to a lesser extent Taoism as test cases for the applicability of creation ex nihilo as a fundamental comparative category for connecting theistic religions with non theistic ones

[Religion and Politics in International Relations](#) Timothy Fitzgerald,2011-10-27 Scholars in International Relations concerned with religion and its relations to world politics are rhetorically constructing a powerful modern myth A component of this myth is that religion is inherently violent and irrational unless controlled by the secular state which is inherently rational and only reluctantly violent Timothy Fitzgerald discusses how in this modern myth religion appears as a force of nature which either assists or threatens the sacred secular order of things and how religion is portrayed as a kind of universal essence which takes many forms its recent most dangerous manifestation being Islamic terrorism This book illustrates that the essential distinction between irrational religion and rational secular politics appears as an unquestioned preconception on the basis of which policy is conducted countries invaded and wars fought Arguing that this rhetorical construction of religion provides the foundation for faith in the rationality of modern liberal capitalism Fitzgerald demonstrates how a historically contingent discourse has been transformed into a powerful set of global assumptions
