Abstract

Human development index is considered as very important for economy as by looking on it, development level of any country can be seen. It is based on education Index, health index and on GDP so for the purpose of analyzing the developing level of a country in different years, it is important to consider its HDI. In literature, Different authors have worked on HDI. The current paper summarizes the work by different authors so from this review paper the work that had been done on HDI can be seen.

Keywords: Human Development, Multivariate analysis, Economy, Pakistan

JEL Classification Codes: G12, G21, G32, E43

I. Introduction

Human Development includes the study of human condition. It does not only deals with rise or fall of national income or economic growth but also deals with the choices of people and expansion of choices which they have in their life. It also deals with the value and improvement of human condition. It scatters the attention of distribution of commodities and services and sees the effect of this on human decision. By developing human capabilities, we can make growth so that a person may be able to get power to live a healthy life, to get education, to get the approach to resources and to be able for the social sources which are necessary for a proper standard of living and also can make a person be able to participate in life of community. *Human development* may be defined as a process of provide enlarger freedom to people and give them opportunities for their well-being. It means freedom which a common man should have to decide about his own living. Six basic supports of human development can be describes as equity, sustainability, productivity, empowerment, cooperation and security where Equity means men and women have same rights for everything like in education, in health care etc. Sustainability means that all the persons have
