Parallel And Conflicting Enforcement Of Law:

Parallel and Conflicting Enforcement of Law Torbjörn Andersson, 2005-01-01 [Forum Shopping in International Adjudication](#) Luiz Eduardo Salles, 2014-05-22 How can procedural objections be used to address the emerging phenomenon of forum shopping before international tribunals [Post-conflict Administrations in International Law](#) Eric de Brabandere, 2009-04-24 The concept of international administrations of territory in which comprehensive administrative powers are exercised by or on behalf of or with the agreement of the United Nations has recently re-emerged in the context of reconstructing parts of states after conflict Although in Kosovo and East Timor the UN was endowed with wide ranging executive and legislative powers in the subsequent operations in Afghanistan it was decided to principally rely on local capacity with minimal international participation and in Iraq administrative power was exercised by the occupying powers The objectives are however very similar This work first delineates the origins of the granting of administrative functions to international actors and analyses the context in which it has resurfaced namely post conflict peace building or reconstruction Secondly the book methodically establishes the legal framework applicable to post conflict administrations and peace building operations by taking into account the post conflict scenario in which they operate Based on these two analyses an enquiry into the practice of the reconstruction processes in Kosovo East Timor Afghanistan and Iraq is undertaken to analyse and understand the influence of the international legal framework and the different approaches on the implementation of the mandates Finally the book concludes with an analysis of questions on exit strategies local ownership the internationalisation of domestic institutions and the need for a comprehensive approach towards post conflict reconstruction [Clarkson & Hill's Conflict of Laws](#) Jonathan Hill, Máire Ní Shúilleabháin, 2016 Clarkson Hill's Conflict of Laws provides a detailed account of the topics taught on private international law courses reflecting the profound changes that the subject has undergone in recent years Focusing on key principles in an engaging and approachable style this text is key reading for private international law students [Chinese Private International Law](#) Xiaohong Liu, Zhengyi Zhang, 2021-04-22 Written with the assistance of a team of lecturers at the Shanghai University of Political Science and Law this book is the leading reference on Chinese private international law in English The chapters systematically cover the whole of Chinese private international law not just questions likely to arise in commercial matters but also in family succession cross border insolvency intellectual property competition antitrust and environmental disputes The chapters do not merely cover the traditional conflict of law areas of jurisdiction applicable law choice of law and enforcement They also look into conflict of law questions arising in arbitration and assess China's involvement in the harmonisation of private international law globally and regionally within the Belt and Road Initiative Similarly to the Japanese and Indonesian volumes in the Series this book presents Chinese conflict of laws through a combination of common and civil law analytical techniques and perspectives providing readers worldwide with a more profound and comprehensive understanding of Chinese private international law *Mediation and*
