Parallel Processing For Supercomputing And Artificial Intelligence:

Parallel Processing for Supercomputers and Artificial Intelligence, 1989 [Parallel and High-Performance Computing in Artificial Intelligence](#) Mukesh Raghuwanshi, Pradnya Borkar, Rutvij H. Jhaveri, Roshani Raut, 2025-05-20 Parallel and High Performance Computing in Artificial Intelligence explores high performance architectures for data intensive applications as well as efficient analytical strategies to speed up data processing and applications in automation machine learning deep learning healthcare bioinformatics natural language processing NLP and vision intelligence The book s two major themes are high performance computing HPC architecture and techniques and their application in artificial intelligence Highlights include HPC use cases application programming interfaces APIs and applications Parallelization techniques HPC for machine learning Implementation of parallel computing with AI in big data analytics HPC with AI in healthcare systems AI in industrial automation Coverage of HPC architecture and techniques includes multicore architectures parallel computing techniques and APIs as well as dependence analysis for parallel computing The book also covers hardware acceleration techniques including those for GPU acceleration to power big data systems As AI is increasingly being integrated into HPC applications the book explores emerging and practical applications in such domains as healthcare agriculture bioinformatics and industrial automation It illustrates technologies and methodologies to boost the velocity and scale of AI analysis for fast discovery Data scientists and researchers can benefit from the book s discussion on AI based HPC applications that can process higher volumes of data provide more realistic simulations and guide more accurate predictions The book also focuses on deep learning and edge computing methodologies with HPC and presents recent research on methodologies and applications of HPC in AI

Frontiers of Supercomputing II Karyn R. Ames, Alan Brenner, 2023-11-15 This uniquely comprehensive book brings together the vast amount of technical economic and political information and the analyses of supercomputing that have hitherto been buried in the frequently inaccessible gray literature Seventy nine distinguished participants in the second Frontiers of Supercomputing conference offer perceptive and often controversial views on the emerging computing environment in the United States This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1994

Parallel Computation and Computers for Artificial Intelligence J.S. Kowalik, 2012-12-06 It has been widely recognized that artificial intelligence computations offer large potential for distributed and parallel processing Unfortunately not much is known about designing parallel AI algorithms and efficient easy to use parallel computer architectures for AI applications The field of parallel computation and computers for AI is in its infancy but some significant ideas have appeared and initial practical experience has become available The purpose of this book has been to collect in one volume contributions from

several leading researchers and pioneers of AI that represent a sample of these ideas and experiences This sample does not include all schools of thought nor contributions from all leading researchers but it covers a relatively wide variety of views and topics and in this sense can be helpful in assessing the state of the art We hope that the book will serve at least as a pointer to more specialized literature and that it will stimulate interest in the area of parallel AI processing It has been a great pleasure and a privilege to cooperate with all contributors to this volume They have my warmest thanks and gratitude Mrs Birgitta Knapp has assisted me in the editorial task and demonstrated a great deal of skill and patience Janusz S Kowalik
