

## The 5 Major Classifications of Musical Instruments

Musical experts classify instruments according to families. For example, the Hornbostel-Sachs system—which is the most famous classification of musical instruments globally—groups the musical instruments into strings family, keyboard family, woodwind, brass, and percussion family. Below is a short discussion of these different classifications:

### 1) String Instruments

String instruments—also termed stringed or chordophones—originate or produce sound from vibrating strings. Performers usually play or pluck the strings of the instruments to produce sound. They use a plectrum or their fingers to create that great sound of the string instruments.

Others, however, make sound by hitting the strings with a wooden hammer or merely rubbing the strings with their bows, while others press a key that enables the string's plucking.

Bowed instruments also belonged to the string instruments. These bowed instruments constitute the Classical Music Orchestra's string section instruments, including the violin, viola, cello, and double bass. You can pluck with your fingers all of these bowed string instruments. This plucking technique is called *pizzicato*.

With the electric guitars, however, you can use various techniques to sound notes. Such methods include *plucking using a plectrum or fingernails, tapping, strumming*. The harp, on the other hand, is mostly plucked.

You can change the pitch of a stringed instrument by varying the tension of the strings. In this way, you can tune a string instrument. You can change the string's pitch in three ways. First, you vary the string's length. The longer the string, the lower its pitch. You can also adjust the string tension. Strings with less tension result in a lower
