

# Moving things

## Observations

Living things can move by themselves. Things that are not alive move in different ways. Some things fall, some things roll, some things fly, some things slide, some things bounce, and some things pour.

## Science activity

Draw a line joining each picture to the word that describes how it is moving.

**bounce**      **roll**      

**slide**            **fly**

      **fall**

      **pour**      

**Science explanations**

Observe and record how things move at a playground. Try moving in different ways. Can a ball move in some of the ways you did?
