role of the apprentice in the system is to approximate creative autonomy Evaluation is approached from three different perspectives in this work ad hoc and abstract theory based and abstract and theory based and concrete The first perspective is the most common one in the current literature and its shortcomings are demonstrated and discussed This starts a gradual shift towards more meaningful evaluation by first using proper theories to define the task being modelled and finally reducing the room for subjective interpretation by suggesting the use of concrete evaluation questions Style, Computers, and Early Modern Drama Hugh Craig, Brett Greatley-Hirsch, 2017-08-03 This book uses computational methods and statistical analysis to challenge traditional assumptions about the plays of Shakespeare and his contemporaries **The Play of Allusion in the Historia Augusta** David Rohrbacher, 2016 By turns outlandish humorous and scatological the Historia Augusta is an eccentric compilation of biographies of the Roman emperors and usurpers of the second and third centuries Historians of late antiquity have struggled to explain the fictional date and authorship of the work and its bizarre content did the Emperor Carinus really swim in pools of floating apples and melons did the usurper Proculus really deflower a hundred virgins in fifteen days David Rohrbacher offers instead a literary analysis of the work focusing on its many playful allusions Marshaling an array of interdisciplinary research and original analysis he contends that the Historia Augusta originated in a circle of scholarly readers with an interest in biography and that its allusions and parodies were meant as puzzles and jokes for a knowing and appreciative audience **Poetry**, 1917 *The Bookman*, 1917 The Publishers Weekly, 1903 **The Cavalry Journal**, 1928 **Poet Lore**, 1916 **The United States Catalog**, 1906 **The Citizen**, 1898 *The Dial* Francis Fisher Browne, 1903 **A Literary History of America** Barrett Wendell, 1905
