Managing Today and Tomorrow Rosemary Stewart,2013-12-31 The basics of management remain the same Managing is very different in different jobs organizations and countries Management is changing radically All three statements are true Most books on management focus on the first or the third statement This book is unusual in that it takes account of all three It does so because effective managers increasingly have to understand not only the basics of management but also how it is changing and how that affects their work and careers Managers are much more mobile than they used to be so they also have a greater need than in the past to understand where how and why management differs

*Managing Today's Schools* Jeffrey Glanz,2022-02-20 Successful principals today need skills in both management and leadership because both are essential to achieve success in all facets of running a school one is not necessarily more important than the other However there are not many books solely devoted to school management Most work on school management is part of larger works on school administration *Managing Today's Schools New Skills for School Leaders in the 21st Century* is unique in that the focus on managerially operating a school does not hinder discussion on the interconnectedness between management and leadership Additionally emphasis is placed on 21st century cutting edge ideas about school management Each chapter includes case study type scenarios with thought provoking questions that simultaneously summarize the chapter while also helping readers think about the ways they might put the ideas of the chapter into practice
