Secular Theology:

Secular Theology Clayton Crockett, 2021-12-24 Secular Theology brings together new writings by some of America's most influential theological and religious thinkers on the viability of secular theology. Critically assessing Radical Orthodoxy and putting American radical theology in context, it provides new resources for philosophical theology. Themes covered include postmodern theology, ethics, psychoanalysis, the death of God, and medieval theology.

Christian Theology and the Secular University Paul A. Macdonald, Jr., 2017-02-24 If the secular university by definition is non-sectarian or non-denominational, then how can it accommodate a discipline like Christian theology? Doesn't the traditional goal of theological study, which is to attain knowledge of the divine, fundamentally conflict with the main goal of secular academic study, which is to attain knowledge about ourselves and the world in which we live? So why should theology be admitted or even care about being admitted into secular academic life? And even if theology were admitted, what contribution to secular academic life could it make? Working from a Christian philosophical and theological perspective but also engaging a wide range of theologians, philosophers, and religious studies scholars, *Christian Theology and the Secular University* takes on these questions, arguing that Christian theology does belong in the secular university because it provides distinct resources that the secular university needs if it is going to fulfill what should be its main epistemic and educative ends. This book offers a fresh and unique perspective to scholars working in the disciplines of theology, philosophy, and religious studies, and to those in other academic disciplines who are interested in thinking critically and creatively about the place and nature of theological study within the secular university.

Theology and the Scientific Imagination from the Middle Ages to the Seventeenth Century Amos Funkenstein, 1986 This work promises to raise the level and transform the nature of discourse on the relations of Christianity and science. Funkenstein leaps fearlessly from one

philosophical mountaintop to another comparing and contrasting doctrines in an amazing display of intellectual dexterity The result is a bold study of ideas bristling with insight and perceptive reinterpretation of familiar episodes in the history of natural philosophy David C Lindberg *Journal of the History of Medicine* Lightning Print On Demand Title **T&T Clark Handbook of Modern Theology**, 2025-12-25 A handbook to Christian theology in the modern period covering key themes movements figures and texts **Secular Theories on Religion** Tim Jensen, Mikael Rothstein, 2000 Scholars of religious studies from Europe and North America explore what a secular or scientific study of religion should be like what methods it should apply what aims and what kind of scientific thinking should be pursued They also consider scholars as public intellectuals operating within and influenced by general societal developments The 18 essays provide a survey of current thinking in the field Distributed in the US by ISBS c Book News Inc *The Religious and the Secular* David Martin, 1969

Theology as Repetition Stephen Foster, 2019-11-07 Theology as Repetition revisits and argues for a revival of John Macquarrie s philosophical theology Macquarrie was a key twentieth century theological voice and was considered a foremost interpreter and translator of Martin Heidegger s philosophy He then somehow fell from view Macquarrie developed a new style of theology grounded in a dialectical phenomenology that is a relevant voice in responding to recent trends in theology The development of the book is partly chronological and partly thematic and avoids attempting to be either deductive or inductive in argument but rather reflects Macquarrie s phenomenologically styled new theology Theology as Repetition is set out in two parts The first part situates Macquarrie in relation to thinkers from the radical theology of the 1960s through to the postmodernists of the late twentieth century The second part explores the intersection of key themes in Macquarrie s theology with the thinking of Kant Hegel Heidegger and representative postsecular and postmodern figures including but not limited to Emmanuel Levinas Jacques Derrida and Jean Luc Marion **Religious Freedom in a Secular Age** Michael F. Bird, 2022-05-03 Discover how to responsibly defend religious freedom for all without compromising your personal beliefs Religious freedom is a bitterly contested issue that spills over into political public and online spheres It s an issue that s becoming ever more heated and neither of the global political polarities is interested in protecting it While the political left is openly hostile toward traditional religion the political right seeks to weaponize it How can we ensure that religious freedom is truly about freedom of one s religion rather than serving an ethno nationalist agenda In *Religious Freedom in a Secular Age* Michael Bird New Testament scholar and author of *Evangelical Theology* has four main goals To explain the true nature of secularism and help us to see it as one of the best ways of promoting liberty and mutual respect in a multifaith world To dismantle the arguments for limiting religious freedom To outline a biblical strategy for maintaining a Christian witness in a post Christian society To encourage Christians to participate in a new age of apologetics by being prepared to defend not only their own beliefs but also the freedom of all faiths While Bird does address the recent political administrations in the US his focus is global Bird who lives in Melbourne Australia freely admits to his anxiety of the militant

secularism surrounding him but he also strongly critiques the marriage of national and religious identities that has gained ground in countries like Hungary and Poland The fact is that religion has a lot to contribute to the common good Religious Freedom in a Secular Age will challenge readers of all backgrounds and beliefs not only to make room for peaceable difference but also to find common ground on the values of justice mercy and equality Theology and Social Theory John Milbank,2008-04-15 This is a revised edition of John Milbank s masterpiece which sketches the outline of a specifically theological social theory The Times Higher Education Supplement wrote of the first edition that it was a tour de force of systematic theology It would be churlish not to acknowledge its provocation and brilliance Featured in The Church Times 100 Best Christian Books Brings this classic work up to date by reviewing the development of modern social thought Features a substantial new introduction by Milbank clarifying the theoretical basis for his work Challenges the notion that sociological critiques of theology are scientific Outlines a specifically theological social theory and in doing so engages with a wide range of thinkers from Plato to Deleuze Written by one of the world s most influential contemporary theologians and the author of numerous books *The Learned Practice of Religion in the Modern University* Donald Wiebe,2019-11-14 In these essays Donald Wiebe unveils a significant problem in the academic study of religion in colleges and universities in North America and Europe that studies almost always exhibit a religious bias To explore this issue Wiebe looks at the religious and moral agendas behind the study of religion showing that the boundaries between the objective study of religion and religious education as a tool for bettering society have become blurred As a result he argues religious studies departments have fostered an environment where religion has become a learned or scholarly practice rather than the object of academic scrutiny This book provides a critical history of the failure of 20th and 21st century scholars to follow through on the 19th century ideal of an objective scientific study of religious thought and behaviour Although emancipated from direct ecclesiastical control and to some extent from sectarian theologizing Wiebe argues that research and scholarship in the academic department of religious studies has failed to break free from religious constraints He shows that an objective scientific study of religious thought and practice is not only possible but the only appropriate approach to the study of religious phenomena *Secular Religions* Tamás Nyirkos,2024-08-06 *Secular Religions The Key Concepts* provides a concise guide to those ideologies worldviews and social political economic and cultural phenomena that are most often described as the modern counterparts of traditional religions Although there are many other terms in use quasi pseudo ersatz political civil etc it is secular religion that best expresses the problematic nature of all such descriptions which maintain that modern belief systems and practices are secular on the one hand and religious on the other Today the topic is as popular as ever and secular religions are discovered far and wide Hence a critical summary is urgently necessary The juxtaposed title is itself an expression of ironic distance The book emphasizes inherent tensions of relevant literature in a critical and informative fashion The author provides over 100 entries from abortion to wokeness as well as a detailed

introduction which gives an overview of the different definitions of religion and secular religion as well as the history of secular religious comparisons The main text reconstructs the argument of several key works on each given topic while lists of sources for further reading are provided at the end of each entry This book provides a clear introduction to secular religions and will appeal to researchers and students of religious studies political philosophy political theology the history of ideologies and cultural studies

The Rebellious No Noëlle Vahanian, 2014-03-03 This book aims to renew theological thinking by extending and radicalizing an iconoclastic and existentialist mode of thought It proposes a theology whose point of departure assumes and accepts the critiques of religion launched by Nietzsche Freud Marx and Feuerbach but nevertheless takes theological desire seriously as a rebellious force working within but against an anthropomorphic phallogocentric worldview As a theology of language it does not claim any privileged access to some transcendent divine essence or ground of Being On the contrary for Noelle Vahanian theology is a strictly secular discourse like any other discourse but aware of its limitations and wary of great promises its own included Its faith is that this secular theological desire can be a force against the constitutive indifference of thought and it is a meditative act of rebellion Aphoristic instead of argumentative this book offers an original and constructive engagement with such seminal issues as indifference belief madness and love [A Heritage in Crisis](#) Ralph K. Hawkins, 2008 The Churches in Christ are in growing disagreement about the direction that the Restoration Movement should take A Heritage in Crisis introduces the background of this identity crisis evaluates nine specific issues that threaten to divide the Churches of Christ today such as worship styles and women's roles and suggests changes Churches in Christ can make in order to facilitate the change back to God's original intent for the church More than simply an academic examination of doctrinal issues A Heritage in Crisis seeks to identify a path by which the Churches of Christ might move into a future illuminated by the light of God's Word

Christianity and the Secular Robert Austin Markus, 2006 As a contribution to the post 9/11 debate on religions cultures and societies these lectures are as finely attuned to their moment as Robert Markus's classic 1970 study *Saeculum* which they update and extend *Christianity and the Secular* challenges all who are concerned with the limits of the secular to take better account of the shaping events and theories of the time in which the Roman Empire turned Christian A beautifully measured book Mark Vessey Canada Research Chair in Literature Christianity and Culture University of British Columbia At a time when the proper boundaries between the sacred and the secular are contested as never before Robert Markus offers a subtle and persuasive analysis of the roots of this distinction in early Christian theology including especially but not only the writings of Augustine He argues that the idea of a secular realm of this worldly practices and concerns legitimate and independent on its own terms is Christian in origin and can be defended on theological grounds At the same time he also shows that this theological conception of a secular realm need not lead to thin liberalism or to an excessively individualistic view of society He thus takes issue with leading strands of patristic scholarship including some tendencies in his own earlier work as well as engaging with a number of theologians

who have recently argued that the secular realm is at best a necessary evil The resulting work is a historically grounded theologically sophisticated defense of the proper autonomy of secular public life its autonomy from religious control and its place as a legitimate sphere for Christian activity This is a most timely work which will further confirm Professor Markus s status as one of the foremost intellectual historians of our day Jean Porter The John A O Brien Chair in Theology University of Notre Dame

Public Theology in the Secular State Rudolf von Sinner,2021-01-12 This book gives a persuasive answer to the need for public theology today Rudolf von Sinner can draw from a rich basis of scholarship and experience related to the topic of public theology His clear awareness of the contextuality of public theology is the reason for his repeated assurance in this book that we cannot speak about public theology but always only of a public theology At the same time it is very clear for him that there is also an intercontextuality One of the great strengths of this book is its embeddedness into an international discourse on public theology with a special emphasis on the South South exchange It is a contribution to public theology scholarship in its best sense I proudly welcome its publication in our series Bishop Prof Dr Heinrich Bedford Strohm Evangelical Church of Germany Rudolf von Sinner is Professor of Systematic Theology at the Pontifical Catholic University of Paran at Curitiba as well as Professor Extra Ordinary at the Faculty of Theology of the University of Stellenbosch South Africa

Spirit and the Obligation of Social Flesh Sharon V. Betcher,2013-11-11 Drawing on philosophical reflection spiritual and religious values and somatic practice Spirit and the Obligation of Social Flesh offers guidance for moving amidst the affective dynamics that animate the streets of the global cities now amassing around our planet Here theology turns decidedly secular In urban medieval Europe seculars were unclioistered persons who carried their spiritual passion and sense of an obligated life into daily circumambulations of the city Seculars lived in the city on behalf of the city but contrary to the new profit economy of the time with a different locus of value spirit Betcher argues that for seculars today the possibility of a devoted life the practice of felicity in history still remains Spirit now names a necessary prosthesis a locus for regenerating the elemental commons of our interdependent flesh and thus for cultivating spacious and fearless empathy forbearance and generosity Her theological poetics though based in Christianity are frequently in conversation with other religions resident in our postcolonial cities

The Fountain Don Cupitt,2014-07-28 Everywhere Tradition is collapsing Local fundamentalist reactions hailed by some as evidence that God is back cannot hope to stem the flood In our time Don Cupitt says religion is no longer about gaining immortality or the forgiveness of our sins it is about becoming reconciled to our life s transience to time and death

Introducing Radical Orthodoxy James K. A. Smith,2004-12-01 Although God is making a comeback in our society popular culture still takes its orders from the Enlightenment a movement that denied faith a prominent role in society Today many are questioning this elevation of reason over faith How should Christians respond to a secular world that continues to push faith to the margins While there is still no consensus concerning what a postmodern society should look like James K A Smith suggests that the answer is a reaffirmation of the belief that Jesus is Lord over all Smith traces the

trends and directions of Radical Orthodoxy proposing that it can provide an old but new theology for a new generation of Christians This book will challenge and encourage pastors and thoughtful laypeople interested in learning more about currents in contemporary theology Christianity in a Secularized World Wolfhart Pannenberg,1989
