John Allen

Seduction In Berlin:

Seduction in Berlin William Kotzwinkle,1985 *A Seduction in Berlin* Nicola Cameron,2024-12-16 Three people Two homelands One irresistible desire The year is 1923 the Great War is over and Berlin is the manic playground of Europe s elite Against a glittering background of nightclubs champagne and hot jazz three people a sensual heiress with a taste for dominance a wounded playboy who craves the touch of his own kind and a desperate German army officer who uncovers hidden desires forge a decadent pact of pleasure But nights of uninhibited passion soon lead to a dangerous emotional connection one that will threaten their futures and their lives Note This book was previously published as *Behind the Iron Cross*

Resounding Pasts Drago Momcilovic,2020-05-15 The field of memory studies has long been preoccupied with the manner in which events from the past are commemorated forgotten re fashioned or worked through on both the individual and collective level Yet in an age when various modes of artistic and cultural commemoration have begun to overlap with and respond to one another the dynamics of cultural remembering and forgetting become bound up in an increasingly elaborate network of representations that operate both within and outside temporal cultural and national borders As publicly circulating texts that straddle the line between cultural artifact and artistic object both musical and literary works both individually and often in conjunction with one another help shape cultural memories and individual experiences of those events Troping their cultural milieux through specific aesthetic and social forms genres and modes of dissemination music and literature become part of a growing global panoply of raw materials upon which we might begin to pose questions regarding the way we remember the consequences of sharing and passing on those memories and the aesthetic and cultural pressures attendant upon the circulation and interpretation of texts that re sound the past

Power and Space John Allen,2024-08-05 *Power and Space* sets out the inherently spatial nature of power today and seeks to change the conversation around how power exercises us in the contemporary moment The essays brought together in this book are a response to the fact that conventional descriptions of power and its ordered geographies no longer chime with our lived experience Spatiality matters to the workings of power nowadays and this book sheds light on what it is that we face when power is exercised through more subtle spatially nuanced arrangements It is divided into three parts each representing a different kind of engagement with power s relationship to space from the spatial shifts in the way power is exercised through to its assemblage like entanglements and in turn its progressive topological character Throughout the book a wide range of social political and economic examples are drawn upon to illustrate a more provisional sense of power ranging for instance from the seductive logic of privatized public spaces to the attempt by a data analytics company to manipulate political behaviour through to the offshore spaces invented by rising financial elites to challenge the established banking order Illustrating the new found abilities of the powerful to make their presence felt this book provides an accessible account of the practical workings of power in the present day It will be invaluable to students and academics in human geography and
