

## TIP #1

*When in class, sit in the front row or close to the front of the room.*

You will have the "best seat in the house" in terms of being able to see and hear the information.

## TIP #2

*Keep your phone in your bag and on silent.*

Even checking a quick text, SnapChat, or other instant message can be a form of multitasking and "self-interrupts" your learning process.

## TIP #3

*Designate one space outside the classroom for learning.*

This creates the cues that tell your brain, "It's study time!"

## TIP #4

*Have only the materials you need for that study/ work session.*

Taking out every textbook, notebook, and device can be overwhelming and distracting.

## TIP #5

*If noise is helpful, create your study "soundtrack".*

Some learners can get "into the zone" with the right noise. Consider finding music that your brain will come to only associate with learning.
