## **Project Mindshift:**

**Project Mindshift** Michael Mannion, 2000 Are extraterrestrials real Or are they the product of overactive imaginations fed by weekly TV shows and tabloid headlines Is the government's silence due to ignorance or to a plan that was implemented long before the public ever heard of Martians Is the motive of the media to simply profit from this phenomenon or is it to act as a medium of something much larger and more complex than entertainment This book is for both the believer and the sceptic to be used to decipher the connection between the role of the media and the history of UFOs For nearly fifty years in TV shows from Captain Video to The X Files movies from The Day the Earth Stood Still to Men in Black from headline stories in both trashy tabloids and respectable publications and now on the internet we have constantly been exposed to extraterrestrials This book examines the media's saturation with UFOs and aliens and addresses a series of arguments as to how it became that way when it will end and who's pulling the strings [The Mindshift Project](#) ,

**Humanizing the Education Machine** Rex Miller, Bill Latham, Brian Cahill, 2016-10-24 A clear roadmap for the new territory of education Education in the U S has been under fire for quite some time and for good reason The numbers alone tell a very disconcerting story according to various polls 70% of teachers are disengaged Add to that the fact that the United States ranks last among industrialized nations for college graduation levels and it's evident there's a huge problem that needs to be addressed Yet the current education system and its school buildings with teachers standing in front of classrooms and lecturing to students have gone largely unchanged since the 19th century Humanizing the Education Machine tackles this tough issue head on It describes how the education system has become ineffective by not adapting to fit students needs learning styles perspectives and lives at home This book explains how schools can evolve to engage students and involve parents It serves to spread hope for reform and equip parents educators administrators and communities to Analyze the pitfalls of the current U S education system Intelligently argue the need to reform the current landscape of education Work to make a difference in the public education system Be an informed advocate for your child or local school system If you're a concerned parent or professional looking for a trusted resource on the need for education reform look no further than Humanizing the Education Machine This illuminating resource provides the information you need to become a full partner in the new human centered learning revolution [Exopolitics: Politics, Government and Law in the Universe](#)

Alfred Lambremont Webre, Jd Med Alfred Lambremont Webre, 2005 EXOPOLITICS is the evolution of Alfred Lambremont Webre's groundbreaking work as a futurist at the Stanford Research Institute where in 1977 he directed a proposed extraterrestrial communication study project for the Carter White House Exopolitics may turn the dominant view of our Universe upside down It reveals that we live on an isolated planet in the midst of a populated evolving and highly organized inter planetary inter galactic and multi dimensional Universe society It explores why Earth seems to have been quarantined for eons from a more evolved Universe society Exopolitics suggests specific steps to end our isolation by reaching out to the
