

## The Physics of Electronic and Atomic Collisions

Lasers and other experimental tools such as storage rings for highly-charged ions, cluster beams, narrow-band synchrotron radiation and multi-detection devices are ensuring continuous progress in the field of electronic and atomic collisions. This was well documented by many invited and contributed papers at last year's 18th International Conference on the Physics of Electronic and Atomic Collisions illustrating the rôle played by lasers. Lasers are now used to prepare beams of polarized excited atoms, ions, and molecules, to detect atomic and molecular reaction products with unprecedented selectivity and sensitivity, and to study multiphoton and strong-field effects in ionization and detachment.

The European Research Conference in Physics — Electronic and Atomic Collisions: Processes at Low and Ultralow Energies (Grens, France; 10-15 September 1994) will highlight the trend towards exploiting new techniques by considering in greater detail collisions between: electrons and molecules; atoms, molecules and ions in beams, traps and low-temperature reactors; electrons and ions in merged beams and in storage beams; laser-cooled ions. But one should not forget that the field of electronic and atomic collisions spills over into many other areas. The four plenary lectures presented at the 18th ICPEAC gave surveys of important sub-fields. Ben Motteelson (Copenhagen) addressed "Shell effects in clusters". Clusters of atoms and molecules function as a bridge between the gas phase and the solid state and are actively studied using spectroscopic and collisional methods. Referring mainly to recent experimental results on shell effects in metal clusters, Motteelson related the "bunchiness" of the single-particle spectrum to shell structure and pointed out analogies to nuclear shell effects. Fritz Bosch (GSI Darmstadt) highlighted the impressive advances in and with ion-storage rings recently achieved at several facilities, notably ESR (GSI Darmstadt), TSR (Heidelberg), ASTRID (Aarhus), and CRYRING (Stockholm). In his lecture on "Atomic physics using storage cooler rings" he showed how electron and laser cooling of heavy ions leads to brilliant monochromatic beams of highly-charged ions which can be used for new kinds of precision experiments in atomic physics, both in spectroscopy and collisions. Many new results have already been obtained, extending from radiative and dielectronic recombination (see figure) to

to allow the structure of heavy low-electron systems to be tested. The figure shows the recombination rate for Li-like  $Au^{79+}$  ions, as a function of the centre-of-mass detuning energy, as measured at the SRS-ESR complex at GSI, Darmstadt (the continuous line is a theoretical curve). Figure courtesy of F. Bosch, GSI, Darmstadt.

electron capture, x-ray spectroscopy, tests of relativity, and atomic astrophysics.

The third plenary lecture was devoted to the theory of electron collisions with atoms, ions and molecules. Phil Burke (Belfast), one of the leaders in this field, demonstrated the continuous advances in calculating elastic and inelastic processes (including ionization) in electron-atom and electron-ion collisions which are important in gaseous discharges, fusion plasmas and astrophysics. Substantial progress has been made in the treatment of relativistic effects for heavier systems and in spin-dependent scattering. Electron-molecule scattering theory successfully tackles the problems associated with electronically excited final states and the rôle of nuclear motion

and non-adiabatic effects in dissociative and vibrational excitation. Spin-dependent effects in electron-molecule scattering present a challenge for the future.

Kate Kirby (Cambridge, USA) reviewed "Atmospheric physics, collision physics, and global change", demonstrating that studies of electronic and atomic collisions can help provide partial answers in developing more reliable models of the atmosphere. Theory presently cannot predict the amount of ozone ("missing ozone problem"), and pathways for increased ozone production are being investigated. One of the great challenges in atmospheric modeling is to predict the influence of clouds.

H. Hotop, Kaiserslautern

### 18th ICPEAC

The 18th International Conference on the Physics of Electronic and Atomic Collisions (ICPEAC) represents a biennial series of conferences dedicated to the fields of electronic and atomic collisions and related areas of atomic and molecular physics. In particular, it deals with the interactions between atoms, ions, molecules, electrons, positrons and photons. The 18th ICPEAC (21-27 July 1993) took place in the beautiful and well-situated Concert Hall in Aarhus and was organized in an excellent way by members of the Institute of Physics, Aarhus, with Torild Andersen and Bent Fastrup serving as Local Co-Chairs. There were about 730 participants from 42 countries, of which about 200 were students or postdocs. The programme included 4 plenary lectures, 26 reviews, 36 progress reports, and 10 oral presentations of selected contributed papers (hot topics). The abstract booklet contains 545 contributed papers, which were presented as posters during the afternoons in the Fidehuset. Both the lectures and the poster sessions tested that the field represents a lively and innovative area of research. The proceedings (ISBN 1-56395-290-X) were published by the American Institute of Physics and are available from AIP Conference Proceedings, AIP, 500 Sunnyside Blvd., Woodbury, NY 11797-2999, USA. The 20th ICPEAC will be held in Whistler, BC, Canada (26 July - 1 August 1995; contact: Int. Conf. Services, 604-850 West Hastings St., Vancouver, BC, V6C 1E1, Canada; tel.: +1-604-681 21 53; fax: +604-681 10 49) and the 21st ICPEAC in Vienna (July/August 1997; contact: H. Winter, Inst. f. Allgemeine Physik, TU Wien, Wiedner Hauptstrasse 8-10, A-1040 Vienna; tel.: +43-1-588 01; fax: +43-1-58 42 03; winter@iapw.tuwien.ac.at).

### ERC

#### Electronic & Atomic Collisions

The European Research Conference in Physics — Electronic and Atomic Collisions: Processes at Low and Ultralow Energies (Grens, France; 10-15 September 1994) is organized by the European Science Foundation in association with the Electronic and Atomic Collisions Section of the EPS Atomic and Molecular Physics Division, with H. Hotop, the Section Chair, acting as the Conference Chair (participation limited to 100). For information, contact: J. Hendekovic, ESF, 1, quai Lévy-Marmésia, F-67080 Strasbourg Cedex (tel.: +33 (-) 88 76 71 35, fax: +33 (-) 88 36 69 67).

The Faculty of Science of the University of Lausanne has an opening for a full time

#### Professorship in Physics of Living Matter

This field is not yet represented in our University. The candidate should be an experimental physicist with specialisation in the physics of living matter. He/she will set up a new research group and establish collaboration with groups in existing related fields, particularly, for example, with those in the Department of Biology, the Medical Faculty, the Swiss Cancer Research Institute, the Physics Department of the Swiss Federal Institute of Technology (EPFL) and with other neighbouring universities. He/she will participate in the teaching (in French) of general physics to students in science and give advanced physics students in physics or physical engineers an optional course about the physics of living matter. These lectures will also be open to biology, chemistry and medical students. Lectures will be given in French.

Applications (C.V., list of publications, reprints of the three most significant publications, research projects and three references) should be sent before **October 15, 1994** to the Dean of the Faculty of Science, CP, CH-1015 Lausanne. For further information: Prof. W.-D. Schneider, tel. +41 21 / 692 36 51 or 692 36 60, Email: wachneid@ipe.unil.ch. For administrative matters: phone +41 21 / 692 35 01, fax +41 21 / 692 35 05.

### **Physics Of Electronic And Atomic Collisions Introduction**

Physics Of Electronic And Atomic Collisions Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Physics Of Electronic And Atomic Collisions Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Physics Of Electronic And Atomic Collisions : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Physics Of Electronic And Atomic Collisions : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Physics Of Electronic And Atomic Collisions Offers a diverse range of free eBooks across various genres. Physics Of Electronic And Atomic Collisions Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Physics Of Electronic And Atomic Collisions Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Physics Of Electronic And Atomic Collisions, especially related to Physics Of Electronic And Atomic Collisions, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Physics Of Electronic And Atomic Collisions, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Physics Of Electronic And Atomic Collisions books or magazines might include. Look for these in online stores or libraries. Remember that while Physics Of Electronic And Atomic Collisions, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Physics Of Electronic And Atomic Collisions eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Physics Of Electronic And Atomic Collisions full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Physics Of Electronic And Atomic Collisions eBooks, including some popular titles.

## FAQs About Physics Of Electronic And Atomic Collisions Books

1. Where can I buy Physics Of Electronic And Atomic Collisions books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Physics Of Electronic And Atomic Collisions book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Physics Of Electronic And Atomic Collisions books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Physics Of Electronic And Atomic Collisions audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Physics Of Electronic And Atomic Collisions books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
