

What is an open-ended story?

- ❑ Open-ended stories are somewhat similar to highly complex branching path stories but are far more player-driven.
- ❑ They often star generic player created heroes.
- ❑ The focus is more on the setting than the main plot.
- ❑ The player typically has multiple ways to approach every quest and can undertake most quests in any order he chooses.
- ❑ Decision points tend to be far less obvious than in branching path stories and are based more on the player's actions and play style than his response to specific prompts.
