Origin And Evolution Of Our Own Particular Universe:

The Origin and Evolution of Our Own Particular Universe David E. Fisher, 1988 Presents known facts and theories on the beginnings of our universe and its evolution over millions of years *The Big Bang, 2nd Edition* Paul Fleisher, 2013-01-01 Where did our universe come from People have been trying to answer this question for thousands of years The twentieth century brought new discoveries in physics and astronomy that led scientists to develop the Big Bang theory a detailed idea that describes how our universe formed According to this theory the entire universe began in a single instant in an unimaginably powerful explosion That explosion created all time and space all matter and energy everything in the universe as we know it This book tells the story of how scientists observations of the stars led to the development of the Big Bang Theory *Evolutionary Emergence of Purposive Goals and Values* Donald A. Crosby, 2023-08-01 Where do the purposes values and existential meanings of the world come from For many they are conferred on the world and on humans within the world by a supernatural transcendent personal divine creator and sustainer For others they result from a God or divine presence residing within nature For still others they give evidence of mind and spirit as primordial principles suffusing nature from the outset and in all of its forms In *Evolutionary Emergence of Purposive Goals and Values* Donald A Crosby takes issue with each of these views His thesis is that mind meaning purpose and value come into existence with the evolutionary emergence of life and that evolution itself gives evidence of the creative power of two primordial natural principles matter energy and time There is no overarching purpose value or meaning of nature as such but there is a plethora of such factors evident in the evolved life forms of nature here on earth This fact is especially evident in the day to day experiences aspirations and concerns of us evolutionarily evolved human beings Purpose meaning and value are therefore gifts of evolutionary nature not of any supernatural or non natural principle presence or power [Makers of Science](#) Michael Allaby, Derek Gjertsen, 2002 Meet the Makers of Science Discover the fascinating achievements of the world s greatest scientists past and present *The World and the Individual: The four historical conceptions of being* Josiah Royce, 1899 **Union Seminary Magazine** ,1906 **Nature** Sir Norman Lockyer, 1901 **The Open Court** ,1887 **Books for the Teen Age** New York Public Library, 1990 *Space Biology and Medicine: Space and its exploration* Arnauld E.
