The U.S.-Mexico border region is home to anthropologist Carlos Vázquez-Ibañez. Into these pages he pours nearly half a century of searching and finding answers to the Mexican experience in the southwestern United States. He describes and analyzes the process as generation upon generation of Mexicans moved north and attempted to create an identity or sense of cultural space and place. In today's border fences, he also sees barriers to how Mexicans understand themselves and how they are fundamentally understood. From prehistory to the present, Vázquez-Ibañez traces the intense bumping among Native Americans, Spaniards, and Mexicans as Mesoamerican populations and ideas moved northward. He demonstrates how cultural glue is constantly replenished by strengthening family ties that reach across both sides of the border. The author describes ways in which Mexicans have resisted and accommodated the dominant culture by creating communities and by forming labor unions, voluntary associations, and cultural movements. He analyzes the distribution of sadness or overrepresentation of Mexicans in poverty, crime, illness, and war, and shows how that sadness is balanced by creative expressions of literature and art, especially mural art in the ongoing
