On Borrowed Time:

On Borrowed Time L. E. Watkins, Paul Osborn, 1945-10 THE STORY Gramps is idolized by his young grandson Pud who models his every action after the old man But Gramps salty expressions and rough behavior are frowned upon by both the strait laced Aunt Demetria and Granny so Aunt Demetria comes to **Building on Borrowed Time** Lukas Ley, 2021-11-23 A timely ethnography of how Indonesia's coastal dwellers inhabit the chronic present of a slow motion natural disaster Ice caps are melting seas are rising and densely populated cities worldwide are threatened by floodwaters especially in Southeast Asia Building on Borrowed Time is a timely and powerful ethnography of how people in Semarang Indonesia on the north coast of Java are dealing with this global warming driven existential challenge In addition to antiflooding infrastructure breaking down vast areas of cities like Semarang and Jakarta are rapidly sinking affecting the very foundations of urban life toxic water oozes through the floors of houses bridges are submerged traffic is interrupted As Lukas Ley shows the residents of Semarang are constantly engaged in maintaining their homes and streets trying to live through a slow motion disaster shaped by the interacting temporalities of infrastructural failure ecological deterioration and urban development He casts this predicament through the temporal lens of a meantime a managerial response that means a constant enduring of the present rather than progress toward a better future a chronic present Building on Borrowed Time takes us to a place where a flood crisis has already arrived where everyday residents are not waiting for the effects of climate change but are in fact already living with it and shows that life in coastal Southeast Asia is defined not by the temporality of climate science but by the lived experience of tidal flooding *On Borrowed Time* Neil Howe, 2017-09-04 Entitlements represent one of the largest and fastest growing portions of the federal budget They are regarded as sacrosanct by lawmakers yet many people see them as one of the greatest threats to the American Dream This volume argues that by sacrificing the future in order to pay ever larger federal benefits through programs such as Social Security Medicare and federal pensions entitlement spending has become a crushing burden to American workers Peterson and Howe destroy myths surrounding entitlement spending They show that the bulk of it does not go to the poor The majority of the elderly are not needy and dependent Entitlement programs not defense spending consume the largest share of the federal budget In short we cannot balance the budget without reducing entitlement spending In a country that demands critical investments improving public education alleviating poverty increasing professional opportunity growth in entitlement spending is unaffordable On Borrowed Time is an important and timely book that will be mandatory reading for policymakers politicians economists and a general public concerned with its financial future Encouraging Myself To Keep On Stepping Wille Mae Gaskin, 2013-05 I am dedicating this book to the memory of my mother Mary Ellen Bell Turner who inspired me to keep on stepping The words I have learned to live by came from my mother Keep on stepping Don't let anybody stop you from doing what the Lord tells you to do **Lives on Borrowed Time** Eva Roden, 2005 **City on the Edge** Ho-fung Hung, 2022-05-19 A timely study of Hong

Kong's politics and society since the 1997 handover that explores the city's long history of resistance

The Politics of Common Reading Joan Judge, 2025-12-22 Examines the transformation of vernacular knowledge during a pivotal period of modern Chinese history 1894 to 1954 What did common readers read in the midst of the revolutions that punctuated China's long Republic 1894-1954 How did they manage the often unprecedented challenges of the era What did they know and how did they know it In *The Politics of Common Reading* Joan Judge traces the unfolding of a consequential politics of accommodation that engaged commoners as knowers rather than as an unenlightened mass A response to the institutional failures of the era this politics was enacted through an informal knowledge infrastructure comprised of low budget publishers rustic bookstalls and a piecemeal national network As yet unstudied this infrastructure produced and circulated up to ten times the number of books as official mainstream channels A corpus of some five hundred of these cheap collections of recipes and techniques serves as the basis for this book Judge focuses on four challenges common readers faced how to cure an opium addiction avoid an electric shock prevent a cholera infection and graft a plant She further draws on government archival periodical and fiction materials in devising composites of individual common readers so that we can better know them details of the crises they faced the remedies they tried and the knowledge they relied on as they concocted cures and applied technologies She argues that the acts of conciliation and assemblage these readers engaged in shaped the broader epistemic terrain from which historical change was actualized in China's century of revolution
